1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source): Claimant disagrees with the quantity of the water right recommended.
2. Describe the changes you wish to make in the proposed recommendation: This right should be recommended in the quantity reflected in the Notice of Claim, which quantity is 3.12 cfs.
3. Give a brief explanation as to why you disagree with these portions: As noted in the preliminary recommendation, this water right is a combination of old right numbers 63-198C, 63-198E, 63-198G, 63-198K, 63-198M, 63-198N, 63-198V, and 63-198AD. However, the combined rights do not include a right to .5 cfs, pursuant to transfer number 395 which was omitted from the combined total. Further, transfer number 430 for .25 cfs should be a reduction from the total quantity, as that was a transfer from Farmers Union water rights not to Farmers Union water rights. Finally, water right number 198K is reflected as .23 cfs. Transfer records reflect that the water right water transferred to Farmers Union was .266 cfs, pursuant to water right transfer number 385. In conclusion, when omitted transfer number 395 for .5 cfs is added and correction of water right number 198V to reflect a deduction of .25 cfs, and correction of water right number 198K to reflect the accurate quantity transferred of .266 cfs, the resulting correct quantity under this water right is 3.12 cfs as reflected in the Notice of Claim on file with the Department.

DEPARTMENT OF RECLAMATION
CERTIFICATE OF WATER RIGHT
Transferred Right No. 385.

This is to certify that H. E. McConnell, of Boise, County of Ada, State of Idaho, has a right to the use of the waters of Boise River, for irrigation and domestic purposes, and that said right has been confirmed by decree of the District Court of the Seventh Judicial District of the State of Idaho, in and for the County of Canyon, in the case of Farmers' Cooperative Ditch Company, plaintiff, vs. Riverside Irrigation District, Ltd., et al, defendants, wherein certain water was decreed to the Middleton Water Company for use upon lands lying under the Middleton Water Company's Canal, said right bearing date of priority of June 1, 1877; that said decree is now on file in the Department of Reclamation of the State of Idaho, at Boise; that, upon the application of H. E. McConnell for a transfer of water right, made before the Commissioner of Reclamation of the State of Idaho, and the said application having been granted, the right to the use of 0.266 second feet of the waters of Boise River is hereby abandoned upon the lands above described and that the lands to be irrigated under such right and to which the water right hereby confirmed shall by this certificate become appurtenant, for irrigation and domestic purposes, are shown in the following table, limited at any given time to an amount actually needed and beneficially used for such purposes and shall not exceed the following amount, to-wit:

0.266 sec. ft., dated June 1, 1877.

That the above described water has heretofore been conducted through the Middleton Water Company's Canal but will hereafter, by authority of this certificate, be diverted in Section 32, Township 4 North, Range 2 E., B.M., and conducted through the Farmers' Union Ditch Company's Canal.

That the right to the use of the water aforesaid, hereby confirmed, is restricted to the lands or place of use herein described, as provided by the laws of the State of Idaho.

WITNESS, The seal and signature of the Commissioner of Reclamation of the State of Idaho, affixed at Boise, Idaho, this 6th day of July, 1926.

W. G. SWENDSEN
Commissioner of Reclamation

Conditions of Approval:

1. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
2. 155 This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and preceding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and preceding to the earliest, shall be reduced to 60 percent of their decreed quantities.
3. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

FARMERS UNION DITCH CO

ADDITIONAL INFORMATION

DATE: AUGUST 16, 2004

BY: MEL SCHULTE

The primary contact for Farmers Union is Gene Bailey, president (286-7318). Bert Johnson (939-6790) is their vice-president and ditch rider. Bert is very familiar with the delivery system and operation of the company. Both Gene and Bert assisted in the review of Farmers Union's boundary and place of use map.

Farmers Union delivers water in their system for a lot of entities and individuals other than their own shareholders. They assess and deliver water for Boise Valley Irrigation Ditch Co, Capital View Irrigation District and the users of the Jacobs right (63-123) in addition to their own water.

An issue that will likely be challenged and discussed is the ownership of the Jacobs right 63-123). In a 1916 contract Farmers was given one-third of the right and it appears that Capital View owns about one-third of the right. Who owns the other one-third is a mystery at this time and needs further review and verification. At this time we have recommended about one-third to Capital View and the remainder to Farmers Union. These recommendations are likely to change.

Another issue that could come up for discussion is the allocation of delivery loss. Measurements were done on several stretches of the Farmers Union canal to estimate delivery loss. Gene Bailey thinks Farmers Union should receive credit for all delivery loss rather than prorating it among the users because Farmers delivers all of the water. This issue will have to be resolved after the Jacobs right ownership issue is resolved. IT IS POSSIBLE FARMERS UNION WILL HAVE TO FILE ANOTHER BENEFICIAL USE CLAIM FOR DELIVERY LOSS.

The Boise Valley Irrigation Ditch Co boundary and place of use overlaps within the boundary of Farmers Union due to the fact Farmers Union canal delivers in the main canal 875 inches of Boise Valley water past the Boise Valley diversion head gate in Farmer's canal. These two companies should merge into one organization.

The POD for Farmers Union canal was determined by GPS.

The acre limitation of 8394 acres is based on the claimed acres. The digitized acres total 8857 acres but this number might include some parcels that overlap with Boise Valley because the users are shareholders of both companies.

The total of the diversion rates recommended for Farmers decreed rights include some delivery loss but the exact amount of delivery loss is not known at this time.
