Dear Jay,

Enclosed is a draft map of the Weiser Irrigation District service area and irrigated acres served by the District. The acres and boundary indicated reconciled with the acreage the Weiser Irrigation District claimed in the SRBA. You should have received the recommendations for 03-7005 and 03-2006. These rights were recommended essentially as claimed. As indicated by the language in the Place of Use section, these recommendations will be amended before the Court issues decrees for the Snake River water rights to reflect the same service area and acres total as the rights recommended in Basin 67. If you have additional questions regarding this process, please contact Don Shaff at 208-287-4921.

Please review the enclosed maps especially the area within which the Weiser Irrigation District delivers water to its users as well as the delineated boundary to make sure that all the land serviced by the company as of 1987 is included. The green service area boundary is the general area the Weiser Irrigation District serves where as the yellow dotted areas are the areas where water is applied.

If additional changes are required, please draw directly onto the map with a dark or silver pen to indicate any additional changes or omissions then mail the map back to me at the address below. Areas where there are roads, railways, ponds, driveways, major canals and laterals, and homes are not normally considered areas where water has been applied to beneficial for purposes of your water rights. If your review confirms that there are no changes, than a representative of the company should sign and date the enclosed acknowledgement letter. The signed acknowledgement letter should than be mailed to me at the address below. Please use only the acknowledgement letter included with the correct map.

Please call or write me if you need additional maps, or if the map needs to be expanded.

Sincerely,

Danielle Bruno-Favreau

To Whom It May Concern:

The Board of Directors of the Weiser Irrigation District has deemed that the service area boundary of the Weiser Irrigation District is illustrated accurately, without modifications, and in its entirety on the map(s) created by Danielle Favreau on November 2, 2006. Additionally, the previously identified map(s) accurately illustrate the location of land serviced by the company as of 1987. We understand that in the process of finalizing the SRBA recommendations, these maps may be adjusted.
