

I, Carlos Weed, was born October 12, 1907 on the property I now own. This property is located east of the town of Council, Idaho in what is now Adams County.

At the time of my birth, my father, Carlos Weed, Sr. owned and rented part of the property now owned by me. He farmed this property using irrigating water from the Sorenson Rinehart Ditch. This ditch is occassionally refered to as the Gifford Sorenson.

I personally helped with the irrigating starting about 1915 and knew the water was from the Sorenson Rinehart Ditch.

In 1925, I bought and started farming the land I now own. Water from the North Lateral of the Sorenson Rinehart Ditch was used then and is still being used on this property.

I bought and rented land in 1928 using irrigating water from the South Lateral of the Sorenson Rinehart Ditch. The route for the main ditch and its laterals have not been changed.

Meetings of stockholders have been held annually, and work for maintainance and cleaning done annually.

Signed *Carlos Weed*
