To Whom It May Concern:

I have lived on our family farm on Marble Front Road in, Caldwell, Idaho, all of my 86 years. I have a personal memory of water being taken out of Mason Creek for irrigation from 19~~24~~<sup>31</sup> to the present.

I remember conversations between my father and the neighbors that put irrigating out of Mason Creek as early as the 1860's.

The diversion of this water has been from two checks, one approximately a quarter of a mile south of Marble Front Road on Mason Creek and the other on Marble Front Road just west of KCID road.

I affirm that the statements in the above document are true to the best of my recollection.

Signature of Claimant Edwin June Vassar Date Nov. 1 - 06
