1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Priority 7-6-09
Period of Use 3/15-11/15

2. Describe the changes you wish to make in the proposed recommendation:

The point of diversion needs to be shown further South.
Our APCS maps show 28.2 Acres
(28.2) bww

3. Give a brier explanation as to why you disagree with these portions.

Your outline in Section 15 encompasses a smaller area than that which is actually watered at this time.

I AGREE with this proposed recommendation: no changes need to be made.

We have a question regarding the future of this water right. The T.F. Canal Company and the Ag Resource and Soil Conservation district are considering the installation of a water containment area in Section 15. This would be a source of irrigation water for the land described as well as more up to a total of 102 Acres. If and when this happens, when do we add that land to our water right?
