being first duly sworn,

deposes and says:

I understand the question which
may arise for water right 67-4068. However you
need to understand that all persons F.E. James L. Mason
has passed away all witnesses are either very ill or
deceased. I filed my Affidavit 7-26-05, I have removed
all evidence of irrigation and went to pumping. It seems
quite evident for a claim for domestic water, meaning Residence
was being established on a farm. That water for
Irrigation on or about the same is not unreasonable
for Proof. This is a late response 11-13-06. I had to
contact ~~what~~ persons related to Mr. Mason to know avail. to
cannot Prove Note its a shame to have privileges revoked
because one cannot physically Prove the previous Affidavit.
