RE: Right 37-4325

The objection to this preliminary recommendation is to the priority date and the source of the water.

With respect to the priority date, the priority date on the original application which was filed in 1993, was done with the knowledge of persons who are now deceased. The priority date granted on the original application should be granted a strong presumption unless disproved by other evidence. This date is June 1, 1889.

A request for the right to attempt to secure other evidence is now being made with respect to the priority date.
