Dear Mr. Fritschle,

I Dick Clay of New Meadows, Idaho and spouse of the former Water Master of District 78, bare witness to the waste water claim (A78-10073) made by Charles F. Farrell of New Meadows, Idaho as a legitimate claim of his waste water from his parcel of land known as the Becker field into the ditch known as the KLF, which he then reused on other parcels of land . I further affirm that before the KLF ditch was dug into a drain ditch in the late 50's or early 60's he would have received his waste water back into the KLF ditch as well, therefore, I contend that the claim would be legitimate as dated starting in 1889.

Sincerely,

Dick Clay
