My mother and I held the original 29" of 1898 & 40" of 1902 water rights to Wallace Creek. Currently these rights are being adjudicated to the property owners in the subdivision of the original ranch. We still own 20 irrigated acres of the property to which these rights were originally decreed in 1898 and 1902. We have received no such notice of any water rights. If this unfair →

situation becomes reality we at least need high water rights to irrigate our pasture and hay land.

p.s. the following is confusing:

Original

1898 - 29"

1902 - 40"

Current adjudication

1898 - 71"

1902 101"

* the 1898 water is being adjudicated to land that was not part of the ranch in 1898.

Thank you
