- b. To draft and adopt amendments to the zoning ordinance that enables the city to influence the location of building envelopes in aesthetically sensitive areas so as to preserve views.
- c. See Community Design.
- 4. To encourage conservation of energy through efficient use of present resources and consider any new types of energy conservation in the future.
 - a. To draft and adopt an energy resource code.
 - b. To promote the development of geothermal energy technology to increase energy efficiency and decrease dependency on petroleum based energy sources.
 - c. To educate people at the time of building permit application about the energy benefits of properly siting a building on the lot and appropriately landscaping the lot.
- 5. To maintain a high quality environment where urban development is compatible with the natural and built environment and takes special notice of the unique environmental qualities of the rivers and streams within and around the city.

Public Services, Facilities and Utilities

The Local Land Use Planning Act intends for this element to show general plans for sewage, drainage, utility corridors, fire stations, schools, and other facilities. The critical issues in Lava Hot Springs are water capacity and police services. The **sewer system** uses aeration lagoon treatment with permitted discharge into the Portneuf and, additionally in the summer, spray onto adjacent fields. Its design capacity of 343,000 gallons per day (gpd) discharge in the winter will support a population of 3,430 persons (assuming 230 gpd per household and 2.3 persons per household). Summer field applications permit 9 million gallons between May and October. This supports an additional 213 households averaged daily, however, the usage is likely to peak on mid-summer weekends. The spray discharge rate of .71 cubic feet per second can discharge 458,853 cubic feet of water in a 24 hour period. This volume will service 1,995 households or approximately 4,588 people. Each system will sustain projected population growth and a healthy tourism population. The **water system** in Lava consists of 11 springs and two wells. Several of the springs may be surface water impacted and need to be taken off line. The wells produce a total of 150 gallons per minute. Assuming daily household use at 349 gallons, the wells alone can service 620 households or approximately 1,423 people. With the springs and 410,000 gallon storage reservoir Lava can service its existing and tourist populations. However, moderate population growth combined with strong tourism growth will push the system beyond capacity within the next five to ten years. Lava Hot Spring's **police services** are provided under contract by the Bannock County Sheriff's Office. The sheriff provides 80 hours per week with additional service on the Fourth of July holiday. During the summer, when tourists increase the population above 3,000, law enforcement capacity may be stretched to the thin. A 24-hour police presence would be more effective, at least during the summer months.

Goals and objectives

General policy statement: *To provide community services and facilities in an orderly, efficient and equitable manner, according to the city's needs and ability to finance.*

1. Minimize the costs of providing public services through the use of intergovernmental cooperation, privatization or other cost saving methods appropriate to Lava Hot Springs.
2. Sanitation: To maintain current sanitation services at present or better levels and prices.
3. Recycling: To cooperate with and encourage the service provider to provide a centralized pickup point for recyclables.
4. Fire Protection: To keep fire protection consistent with the growth of the community and encourage cooperation with McCammon and Inkom for all community citizens.
 - a. To consider special development and building requirements in heavily wooded areas where wildfire is a continuing threat.
5. Police Protection: To improve and maintain relations with the Bannock County Sheriff's Department to increase the efficiency of police protection within the Lava Hot Spring's community.
 - a. To explore the possibility of training local reserve officers to assist with patrols in town.
 - b. To explore the possibility of implementing a business watch program similar to Pocatello's to improve watchfulness in town.
6. Water: To maintain and protect water quality at present quantities that are consistent with the growth of the community as well as encourage an ongoing program to maintain clean water as described by the Clean Water Act of 1992 and any subsequent amendments. (see Water and Sewer Map)
 - a. To plan for additional well capacity of 150 to 200 gallons per minute within the five years.
7. Roads: To maintain a roadway system that encourages the best and most efficient use for traffic flow patterns in the city.
 - a. To explore various finance options for installing Curb, Gutter, and Sidewalk including subdivision and building code requirements in certain areas.
8. Sewer:
 - a. To maintain sanitary sewer capacity at present quantities that are consistent with the growth of the community.
 - b. To require state and federal requirements be upheld. (see Water and Sewer Map).
 - c. To work with developers and property owners to extend sewer lines to development areas south and west of the current city limits. (see Development Map).

RESOLUTION 1996-1

WHEREAS, the City of Lava Hot Springs has undertaken the research and commissioned analyses to constitute a new comprehensive plan; and,

WHEREAS, the City of Lava Hot Springs Comprehensive Advisory Committee and consulting planner guided the development of the plan; and,

WHEREAS, the Lava Hot Springs City Council held a public hearing, March 14, 1996 at the Lava City Hall, heard testimony, and responded to input from the public; and,

NOW, THEREFORE, BE IT RESOLVED, in a motion made by Councilman, F.L. Duke Walden and seconded by Councilman, Leon Gates, that the City of Lava Hot Springs Comprehensive Plan of 1996 be adopted.

PASSED by the Council and **APPROVED** by the Mayor this 14th day of March, 1996.

ORDINANCE # 1982-8

AN ORDINANCE ALTERING THE LEGAL DESCRIPTION OF THE CITY OF LAVA HOT SPRINGS TO CONFORM TO THE ACTUAL CORPORATE BOUNDARIES OF THE CITY; MADE PURSUANT TO IDAHO CODE SECTION 50-223, PROVIDING FOR REPEAL OF ORDINANCES INCONSISTENT WITH THIS ORDINANCE; AND PROVIDING FOR AN EFFECTIVE DATE.

PREAMBLE

WHEREAS, the ^{Village}~~City~~ of Lava Hot Springs, Idaho was duly incorporated under the laws of the State of Idaho on the 24th day of July, 1915; and,

WHEREAS, the legal description contained in the Incorporation Petition of said date, Book #3, Page 350 of the Bannock County Commissioner's records was and is unclear and incorrect; and,

WHEREAS, the City Council of the City of Lava Hot Springs wishes to correct said incorrect legal description.

THEREFORE, BE IT ORDAINED by the Mayor and City Council of the City of Lava Hot Springs, Idaho:

SECTION 1: That the legal description contained in the Bannock County Commissioner's Records, Book #3, Page 350 be and hereby is altered to conform to the actual boundaries of the City of Lava Hot Springs; to wit:

(SEE LEGAL DESCRIPTION AND MAP ATTACHED HERETO
AS EXHIBITS A & B)

SECTION 2: The map or plat attached to this Ordinance is an accurate map of the re-defined boundaries of the City of Lava Hot Springs as set out in Section 1 above. The map is hereby adopted as the official map and plat of the territory hereby annexed.

SECTION 3: The Mayor of the City of Lava Hot Springs is hereby authorized and directed to certify that the map is an accurate map under the provisions of this Ordinance.

SECTION 4: This Ordinance with a certified copy of the official map attached hereto, shall be recorded in the office of the County Recorder of the County of Bannock, State of Idaho, and make all other necessary recordings pursuant to Idaho Code §63-2215.

SECTION 5: If any provision of this Ordinance shall be held invalid, its invalidity shall not effect any other provisions of this Ordinance that can be given effect without the invalid provision. For this purpose the provisions of this Ordinance are hereby declared to be severable.

SECTION 6: Since the immediate operation of the provisions of the Ordinance is necessary for the preservation of public peace, health, and safety, an emergency is hereby declared to exist, and this Ordinance shall be in full force and effect from and after its passage by the City Council, approved by the Mayor, and publication and posting as required by law.

SECTION 7: That all Ordinances or parts thereof which are inconsistent with this Ordinance are hereby repealed.

On April 2, 2004 Claimant City of Lava Hot Springs, through Raymond Bailey, mayor, filed a *Motion to File Late Notice* of Claim for the above water rights. On July 20, 2004, a hearing was held on the Motion. Canda Dimick, City Clerk for the City of Lava Hot Springs, appeared for the Claimant. No other parties appeared to oppose the *Motion*.

Following questioning by the Court, the Court has concluded that the Claimant presented proper grounds for the *Motion to File Late Notice of Claim* to be granted.

At the hearing, the Court cautioned Mrs. Dimick that municipalities are not allowed to proceed *pro se* in proceedings before this Court, and that the Claimant would need to retain legal counsel before the Claimant appears in any future proceeding before the SRBA Court.

Therefore, IT IS ORDERED, that the above water rights are hereby **allowed** to proceed as claims. IT IS FURTHER ORDERED that the Claimant retain legal counsel before appearing in any future proceedings before this Court.

The original Notice of Claim, as well as any attached filing fees, and a copy of this *Order* will be forwarded to the I.D.W.R for further action.
