In addition, the source for this surface water claim has been previously determined by a prior decree and cannot be changed by way of an objection in the SRBA. With respect to the priority date, there is no basis in fact or law to add the language requested by the Objector that would purportedly change the priority date for licensed or decreed groundwater rights held by individual "shareholders or interest holders" of the Objector. With respect to the place of use, there is no basis in fact or law to include the remark that would purportedly change the place of use of this previously decreed surface water right, or the place of use identified in licensed or decreed groundwater rights held by individual "shareholders or interest holders" of the Objector. Finally, there is no basis in fact or law for the "separate stream" provision sought by the Objector.
