1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

North east corner was always irrigated

2. Describe the changes you wish to make in the proposed recommendation:

I need more acres

3. Give a brief explanation as to why you disagree with these portions:

On attached copie

☐ I AGREE with this proposed recommendation: ~~no~~ changes need to be made.

DATE: *Dec 5, 2006*

RE: Recommendations for rejudication

Dear Sir;

I respectfully disagree with the proposal that you submitted. For efficiency reasons, the irrigation system was changed in approximately 1989, '90, or '91. If the date becomes an issue, it can be determined. As you can see from my map, the A.S.C.S. indicates I am irrigating 77.06 acres. Your map shows the NE corner as not being irrigated. This parcel has always been irrigated, sometimes with waste water and sometimes with the main system. I'm not sure how your line was determined, because it divides the field that is on that particular irrigation ditch. If a representative was in the area, I would be happy to show it to him.

As far as the denial for the drain water, today, I don't care one way or the other. I have plenty of water without the drain water. I did however, catch it for several years and divert it on to the pasture. Those structures are still in place, but I have actually not used it since the new system was installed.

Thank you for your consideration in this matter. Sorry I couldn't make it to your November 29th meeting, I have had a recent surgery. Call me at your earliest convenience.

Respectfully,

Robert M. Routson

Idaho Department of Water Resources
