1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Disagree with the recommendation for disallowal.

2. Describe the changes you wish to make in the proposed recommendation:

Recommendation for approval with convincing supporting information.

3. Give a brief explanation as to why you disagree with these portions:

City records indicate that a well had been completed as of March 3, 1936.
A rate of flow of approximately 1.42 cfs would have been necessary to
support the population of Middleton in 1936, including fire protection.

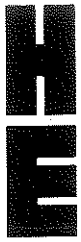

____ I AGREE with this proposed recommendation: no changes need to be made. See attached documentation.

**Re: City of Middleton
 Water Right Claim Number 63-22363**

Dear Mr. Tuthill,

As requested in the Extra Notice dated November 20, 2006, we are providing evidence regarding the date of priority and rate of flow provided by the system. Please consider the following supporting information in your recommendation:

1. It appears that the basis of the priority date for this claim number is based on Ordinance 40 passed and approved on October 16, 1919, establishing an election on the issuance of bonds to provide for the construction and maintenance of a municipal water works plant and a water supply. See attached Document 1. Based on Record of Proceedings on December 1, 1919, the bond election failed. The City has no records of a discussion of a water system after this date until 1935.
2. On November 5, 1935, the minutes from the Council meeting indicate that Resolution No. 1 was proposed to finance the construction of a water works system. On March 3, 1936 Record of Proceedings of the Village Council states that A.P. Schmidt had completed a project pertaining to the drilling of a well and satisfactory flow tests, indicating that a water system was in place within the Village of Middleton. See attached Document 2.
3. As seen from the Record of Proceedings of the Village of Middleton on April 18, 1940, fire protection was being provided in that the Council authorized the purchase of fire hydrants. See attached Document 3.
4. The U.S. Census Bureau published a population of 372 for Middleton Village in 1930 and a population of 477 in 1940. Using linear interpolation of the census data, the estimated population in 1936 would have been 435. The 2002-2004 peak hour water demand was determined to be 19.2 gallons per hour per capita based on actual flow meter records, as presented in the City's Water Master Plan dated November 2005. Applying the 2002-2004 water usage value of 19.2 gallons per hour per capita based on

an estimated 1936 service population of 435, the peak hour demand would have been approximately 8,360 gallons for the entire City. This is equivalent to 139 gallons per minute (0.31 cfs). In addition, fire flow protection was provided at the time. A value of 500 gallons per minute (1.11 cfs) is estimated for fire protection. Based on this analysis, a flow rate of 1.42 cfs would have been necessary to serve the estimated service population in 1936. See attached documentation of U.S. Census Bureau population data (Document 4).

Mr. C.J.Murphy, Chairman
Board of Trustees,
Middleton, Idaho

Dear Sir:

The administration has approved a reduction of \$400.00 in the allotment for the above project to provide for a loan of \$10,600 in place of a loan of \$11,000 as originally contemplated.

Yours very truly,

J.Vernon Otter
State Director (Idaho)
For the Administrator

Upon motion of trustee Payne and seconded by trustee Shaffer the Village clerk was instructed to submit to the Honorable J.Vernon Otter P.W.A. State Director the following proposed resolution, proposed to be passed by the board of trustees, provided the same meets the approval of said state director, Motion carried.

Middleton, Idaho
March 1936.

PROPOSED RESOLUTION,

The Board of Trustees, having under consideration the preparation of a request, for an extension of time on the Contracts A and B of Docket Idaho 1038, The following resolution was offered by _____ and seconded by _____

WHEREAS: it has become necessary, due to the length and severity of the winter, that the contractors under contract A and contract B of docket Ida, 1038 be granted an extension of the contract time set for the completion of said contracts, and

WHEREAS: The Village Trustees have agreed upon a revised completion date of June 30, 1936 for the contract B, and April 30, 1936 for contract A, and

CONTINUED

RESOLUTION

The board of trustees having under consideration the preparation of a request for, change in the approved construction documents for docket Idaho 1038, and the necessary accompanying transfer of funds from one item to another in the last approved standard classification of project costs, the following resolution was offered by trustee Morrison and seconded by trustee Shaffer.

WHEREAS: Mr. A.P. Schmidt has completed that part of contract A under docket #1038 pertaining to drilling of the well, and satisfactory flow tests, chemical tests, and bacteriol tests, have been completed, and found satisfactory, and

WHEREAS: The flow test report, and the determined draw down, at the time of making said flow test was such that it is deemed practicable and advisable for the Village to make use of its ~~option~~ option of substituting the schedule B-2 referred to in, and as provided for in the Contract A, in lieu of the schedule B-1 of said contract; which substitution will provide for the use of the Centrifugal Type pump in lieu of the Deep well Turbine type pump. and,

WHEREAS: such substitution will be of material economic advantage and in accord with good engineering practice, and

WHEREAS: the well as completed required reductions in the estimated quantities shown in the bidding blanks, upon which proper sale were received and the contract let, which reductions were provided for in the contract through the instructions to bidders and the Specifications, and

WHEREAS: The Village has decided to try and complete the project within the \$19272.72 cost as shown on their original application to the Federal Government for the loan and grant and not deposit the additional \$400.00 required for making use of the additional fund allotment; which decision makes it necessary to reduce the amount of item ~~3E~~ 3E; of the approved Standard Classification of Project costs, in the amount which it was increased in the effort to show use for the entire allotment at the time of submitting the Recapitulation of estimated project costs for approval.

NOW, WHEREFORE BE IT RESOLVED, that the Village prepare the necessary request to the State Director PWA for the above mentioned changes and substitution, also a statement of the revised cost of the project and the funds available, based upon contract commitments, changes requested, and a loan of \$10600.00.

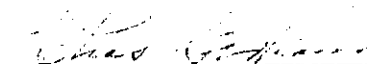

The resolution being put to a vote, the Vote was unanimous for its passage.
