7 December 06

This is to certify that the property
30 acres at that time was well irrigated
from spring and run off water from Mesa
Cerrano.

I owned property across the road
and caught the waste water for my own
use.

It was irrigated from 1950-1975 by
successive owners Clyde Woods and
Tom Apple.

I can't speak to any water right
but it has been well irrigated in
the past.

Should you require any further
verification I will be glad to oblige.
