**ATTACHMENT TO RESPONSE
OF
A & B IRRIGATION DISTRICT**

Explanation:

9. Place of Use:

All of the lands within the digital boundary of A & B Irrigation District are not included in the District. Those lands that are not included in the irrigation district may not receive water from the irrigation district in the absence of a transfer of the place of use within the digital boundaries. Federal lands of the Bureau of Reclamation are not included in the district, and therefore is not a place of use for this water right.

10. I object because: This water right should not exist.

This water right was decreed to A & B Irrigation District by the District Court under the Eagle Decree. Although the United States may have a security interest in this water right, which is held in trust by the irrigation district for the lands included within the irrigation district, there is no basis upon which this right should be issued in the name of the United States of America acting through the Department of Interior, Bureau of Reclamation. As between this right and Water Right No. 01-2061, this right is a preferred right, as it has an earlier priority date.
