Jerry R. Rigby
Rigby, Thatcher, Andrus, et al.
P. O. Box 250
Rexburg, Idaho 83440-0250

Roger A. Rigby
Your signature or signature of attorney mailing on your behalf

ATTACHMENT TO RESPONSE

Explanation:

This water right should be decreed as previously decreed and recommended, showing the acres irrigated when the right was acquired.

2. Source

There is no basis in fact or law to add the language requested by the Objector that would purportedly bifurcate and somehow change the source designation of individual ground water rights held by “shareholders” or “interest holders” whoever they may be, of the Objector. Licensed and decreed ground water rights held by individuals that may be located within the Objector’s service area and that identify a specific source, i.e., ground water, cannot be changed by an objection to the above-referenced surface water right held by the Objector, nor may they claim an interest in project water of Objector.

In addition, the source for this surface water claim has been previously determined by a prior decree and cannot be changed by way of an objection in the SRBA.

4. Priority Date

With respect to the priority date, there is no basis in fact or law to add the language requested by the Objector that would purportedly change the priority date for licensed or decreed ground water rights held by individual “shareholders” or “interest holders” of the Objector.

7. Purpose(s) of Use

There is no basis in fact or law to add the “groundwater recharge” use requested by the Objector. This water right was previously decreed for irrigation purposes, which does not include a year-round ground water recharge use. There is no evidence that there has ever been an appropriation for ground water recharge by Objector.

8. Period of Year

There is no basis in fact or law to add the year round use requested by the Objector. This water right was previously decreed for irrigation purposes, which does not include a year-round ground water recharge use. There is no evidence that there has ever been an appropriation for ground water recharge by Objector.

9. Place of Use

There is no basis in fact or law to include the remark that would purportedly change or expand the place of use of this previously decreed surface water right, or the place of use identified in licensed or decreed ground water rights held by individual “shareholders” or “interest holders”, whomever they may be, of the Objector. In addition, there is no basis in fact or law for the “separate stream” provision sought by the Objector.

10. Other – Claimant’s Proposed General Provisions

Although the Objections do not request any general provisions, to the extent the Objectors’ seek to have any of the references in their Objections incorporated into the partial decree as “general provisions,” Respondents disagree for the reasons identified above.
