To Whom It May Concern,

We have recently received information concerning our water rights which was sent out by your department. In the attached form, the Aerial View that was taken and then marked with a yellow line is in question. It is shifted roughly 40 feet over the highway and about 25 feet southwest of our property lines.

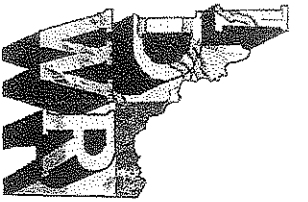

The property in the valley has all been resurveyed this year, thus my question is: Is this a simple "typo" error or should I be concerned?

Sincerely,

A. Ted Tenbrink
