Notice of Error Reply

Attached please find a copy of the water right (license) referenced above with complete information as to location, use, flow and total acres. Please note: The information on the preliminary recommendation should be corrected to represent the water right claim accurately.

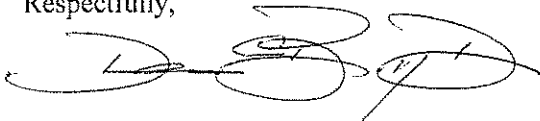

Total Quantity Appropriated: 0.07 CFS
Total Acres: 3.5
Period of Use: 4/01 to 11/01

The above flow and acreage, as referenced on the water right license, is required on this property for irrigation to maintain forage, as appropriate sustainable stewardship of the forage root systems thereby reducing potential erosion and surface runoff on the associated stream bank of the North Fork Salmon River and thus reduce fire hazard during the prolonged non-rainfall periods.

Please find appropriate documentation enclosed and contact information below should any additional information be needed for correction of the preliminary recommendation as forwarded.

Thank you, in advance, for your assistance.

Respectfully,

Dennis C. Bryant
