1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source): *the quantity of water and the number of acres*

2. Describe the changes you wish to make in the proposed recommendation: *there are two diversion points one to irrigate the south side of Iron Creek and one to irrigate the north side. You missed some acres on the north side and south side*

3. Give a brief explanation as to why you disagree with these portions: *There are two diversion points to this water right, one on the south side of Iron Creek + one on the north. the right needs to be restored to 140 CFS - 160 CFS won't even reach the field.*

☐ I AGREE with this proposed recommendation: no changes need to be made.
