1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source): I disagree with the quantity of water and the total acres. Your diversion point is also wrong.

2. Describe the changes you wish to make in the proposed recommendation:
The water needs restored to the .200 it has always been and the acres needs changed to reflect actual irrigation. (areas outlined in red).

3. Give a brief explanation as to why you disagree with these portions:
you have not allowed enough water to irrigate the total acres because you have underestimated the acres irrigated. The diversion point is incorrect.

☐ I AGREE with this proposed recommendation: no changes need to be made.
