December 2, 2006

Karl J. Dreher
State of Idaho
Department of Water Resources

Dear Mr. Dreher

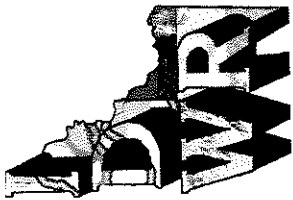

The following is my response to item # 3 on the Notice of Error Reply

Two points of diversion were marked in the original report made in August 2006 by Jack Ellis. The secondary point of diversion shown on the map in the Preliminary Recommendation is for a ditch that would have to be reinstated. The primary point of diversion was omitted from the Preliminary Recommendation; the omitted point of diversion is an irrigation pump that is the only source relied upon at this time. In speaking with Ken Knoblock, Friday, December 1, he recommended including a map of the proposed additional point of diversion.

Thank you
