File#: ... 88 Sub Case Notes

The water right number (23-4000) initially listed on the Motion to File Late Notice of Claim is already an existing number that has a SMRR filed in it. I spoke with Candice McHugh at IDWR and she advised she would contact the claimant. Candice telephoned me on 12/12/06 stating the new water right number is 23-11336 and that the claimant would be sending a letter of correction and also a corrected Notice of Claim completing the priority date section of that form. jmurphy 12/14/06

Re: Wayne Leasing, LLC

Dear Clerk:

I received a phone call from Candice McQue concerning this matter. It is my understanding that rather than using the claim number of another right (23-4000), this has been assigned a new claim number, 23-11336. This is fine.

Also, I received word from Candice that there needed to be an indication as to the priority date with respect to this late filed claim. Enclosed with this letter please find a new front page of a "Notice of Claim to a Water Right" for this matter in which I have inserted a claim priority date of June 1, 1914.

May I explain the claimed priority date. I will include with this letter a copy of the original patent from the United States government to the land where this water is used. This was recorded at book 21, page 94 of the records of Bonneville County (then Bingham), Idaho. It is a difficult copy to read. However, there are two pertinent points related to this. First, please note that this was issued with regard to the homestead filed by Everett Daniels. The date of this patent was October 11, 1922. Obviously, under the homestead entry statutes the land had to have been entered in years prior and certain improvement work was done. You will see from other documents submitted in connection with this file that my client, Wayne Leasing, LLC, acquired this property from Dora Daniels, as the last owner in the Daniels family.

Clerk of the District Court
December 13, 2006
Page 2

Second, I will include pertinent pages of the claim to water right filed with respect to right number 23-4000. I include these pages in support of the claimed 1914 priority date. Please look at item 4. c. which refers to a jointly used pipe system by the references made to "the Daniels ranch". In addition, please see item 9 which indicates that Ed Daniels has used his half of the water consistently since 1914. Also, please see the affidavits which are part of the paperwork dealing with right number 23-4000. One affidavit is signed by Earl H. Adams and the other by William E. Hill. Each of these indicates that Ed Daniels has maintained property and used his share of water since the year 1914. I believe these provide support for the claimed priority of 1914, even though the actual patent to the land was not issued until 1922.

I apologize for the confusion in not including this earlier. It will be my hope now that this will straighten out your file and we will anticipate the hearing on March 20, 2007.

Very truly yours,

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication. Any document filed with the court will be mailed only to those parties who may be directly affected by it.

A monthly docket sheet is prepared by the court, which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of a monthly docket sheet may be obtained from any of the offices of the department; a small fee may be charged to cover the cost of mailing and/or copying. If you wish to receive an annual subscription of the docket sheet printed each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee by the court to cover the cost of copying and mailing. The docket sheet is also available on the SRBA court's web site at www.srba.state.id.us/docket.htm. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department or the SRBA court and a small fee may be charged to cover the cost of mailing and/or copying the document.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. You may also obtain copies of the notices of claims filed by other claimants, but you may be charged for the cost of copying and mailing. A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.

After the notices of claims have been reviewed, the director will prepare and file a Director's report with the SRBA court that will contain the Director's recommendations as to each water right claimed under state law and a copy of each federal reserved water right claimed. Director reports will be prepared in each administrative basin within the Snake River Basin. When the report for your basin is filed with the court, you will be mailed a notice informing you that the report for your basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department or the court.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If you fail to file a required notice of claim for a water right, that water right may be determined to no longer exist.

If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. You may contact IDWR regional offices or the IDWR web site www.idwr.idaho.gov for change of ownership forms. The notice of change in ownership form must be accompanied by evidence of the ownership of the property. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department or the court.

**ATTACHMENT TO STANDARD
FORM 4 - MOTION TO FILE
A LATE NOTICE OF CLAIM**

The claimant herein previously filed a Motion to Set Aside Partial Decree and File Amended Claim herein. Pursuant to stipulation in a telephone hearing dated November 8, 2006, such motion was withdrawn. This motion was withdrawn because after consultation with the Idaho Department of Water Resources, and their counsel, Candice McQue, it was determined the appropriate procedure to follow in the matter would be a withdrawal of the Motion to Set Aside Partial Decree and File Amended Claim and instead, file a motion to file a late claim for the reasons described herein.

A. The records of IDWR herein show, by a previous partial decree, that the place of use for water right number 23-4000 is NW1/4NE1/4 of Section 14, T 1 N, R 43 EBM, Bonneville County, Idaho. Attached hereto is **Exhibit "A"** and by this reference incorporated herein is a copy of the deed recorded as instrument no. 1044868, on April 5, 2001 ("the Deed"). The Deed is the instrument by which the estate of Dora B. Daniels conveyed certain property and a residence thereon, which residence receives domestic and stock water from the springs described in water right number 23-4000.

B. Attached hereto as **Exhibit "B"** and by this reference incorporated herein is a copy of a document entitled State of Idaho Department of Reclamation Claim to a Water Right ("the Claim"). This is the original Claim filed with respect to water right number 23-4000 by Mr. Ed Daniels. Ed Daniels was the husband (now deceased) of Dora B. Daniels. Dora B. Daniels is also now deceased. Item 4c of the Claim refers to a diversion of two 3/4 inch lines running parallel to one another, one going to the "Peterson Ranch, VanNoy" and the other to the Daniels Ranch. This language which evidences the fact that two residences have historically received water from these springs.

C. It appears that Mr. Ed Daniels filed one claim for usage of water from the springs. He mistakenly believed that by disclosing that the spring served two domestic rights (two homes and incidental stock watering associated with each) that such claim sufficed for both residences. The Peterson Ranch, VanNoy parcel is now owned by Mr. Dean VanNoy. The previous partial decree has confirmed water right number 23-4000 is appurtenant to the VanNoy property.

However, the property of the claimant herein ("the Claimant's Property") has received water from the spring, along with the VanNoy property, since at least 1922, when the patent was first issued to the predecessor in title to Ed Daniels with regard to the Claimant's property. The date the patent originally issued for the Claimant's Property was _____, 1922, which establishes when first use and entry of the property occurred.

Date: _____, 2006.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. ~~Please use additional sheets if space provided is not sufficient to fully answer the questions.~~

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	May 18, 1871	amount:	0.8 c.f.s. or	_____	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.
