

Robert and Gerlene Hash
2356 Scenic Drive
Emmett, ID 83617
December 13, 2006

To Whom It May Concern,

We sold the property at 3050 Fruitvale - Glendale Road,
Adams County to Michael and Robin DeFruita in
2002.

We owned the property from 1992 until the time of
sale.

We irrigated the portion of the property adjacent to
Fruitvale - Glendale Road for our garden and
horse pastures.

The lower portion of the property was used to raise
alfalfa and Timothy hay. We raised "certified weed
free hay" for two years but found it not
worth the hassle and continued to harvest it
for our own use.

We used Glendale ditch water from a piped
source to run hand lines with sprinklers.

We hope this will clarify any land use questions
that you might have. Please call us for
any further questions.

Sincerely,

Robert J. Hash

To Whom It May Concern,

We sold the property located at 3050 Fruitvale Glendale Road, Adams County to Michael and Robin DeFreitas in 2002.

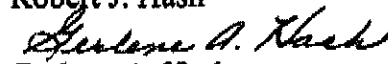

We owned the property from 1992 until the date of sale. We believe that research would show that part of the property below or south of the rail corridor was irrigated from the old Glendale Ditch since the early 1900's. We irrigated the upper portion of the property adjacent to Fruitvale Glendale road for horse pasture and raised our hay on the lower portion of the property. We repaired the fences shortly after moving there and planted that lower area in timothy and alfalfa hay. We irrigated it with piped water from the Glendale Ditch. We had handlines with about 20 sprinkler heads to do this. We cannot recall the year that we dug the pipeline for ourselves and our neighbor but it was prior to the abandonment of the rail road.

For two years we raised "certified weed free hay" for sale so state records should show the inspection dates. We found it to be too much of a hassle so we continued to raise hay for our own use until we sold the property.

We hope this will clarify any land use questions that you may have. Please call us for any further questions.

Sincerely,

Robert J. Hash
