1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

There is and has been beneficial use of the water right since 1967. The use is from a creek fed by a spring. The water is pumped for irrigation. Attached is an affidavit from Mr. Andrew Goodwin stating the time of use.

2. Describe the changes you wish to make in the proposed recommendation:

We would like to continue the beneficial use as irrigation

3. Give a brief explanation as to why you disagree with these portions:

The use has been continuous for irrigation except in dry years when the creek dries up.
