

AMENDED SETTLEMENT AGREEMENT

This AMENDED SETTLEMENT AGREEMENT is entered into this ____ day of October 2006, by and between JAMES JUAN SPILLETT (as owner of Water Claim Nos. 41-8B and 41-13B), KELVIN TAYSOM AND SUZANNE TAYSOM (as owners of Water Right No. 41-8C), KBC FARMS, LLC (as owners of Water Right Nos. 41-8D and 41-13A), ROBERT R. SPILLETT AND JAMES V. SPILLETT (as owners of Water Right Nos. 41-8E, 41-13C and 41-10230), and 7UD RANCHES (as owner of Water Right No. 41-8F).

RECITALS

A. The parties to this Amended Agreement are the owners of certain water rights and/or claims as more particularly stated above and recorded by the Idaho Department of Water Resources. All of these water rights have been recommended and/or decreed with diversion points within the Adshead Ditch or Jackson Ditch located on the South Fork of Rock Creek.

B. Partial Decrees were entered for Water Right Nos. 41-8C, 41-8D, 41-8E, 41-8F and 41-10230 without objection in the year 2000. These water rights are located in the Adshead Ditch. The Partial Decrees for Water Right Nos. 41-8E and 41-10230 have been set aside.

C. With regard to Water Right 41-8B, James Juan Spillett filed a claim for 0.60 cfs (30 inches). Upon investigation, IDWR recommended that it be decreed in the amount of 0.53 cfs (26.67 inches). James Juan Spillett filed an objection to the recommendation. 7UD Ranches filed a response to the objection. It is anticipated that a trial adjudicating James Juan Spillett's claim under Water Right 41-8B will be scheduled before Special Master Terrence A. Dolan.

D. On October 1, 1992, a Final Transfer Order was entered in the Matter of Transfer No. 3519 which approved a change in the point of diversion for Water Right No. 41-8B from the Adshead Ditch to the Jackson Ditch with the condition that the transferred water "must be diverted in rotation with the other users of the Adshead Ditch."

E. Because of the Final Transfer Order and the impracticality of James Juan Spillett pumping the full quantity of the Adshead Ditch (160 inches) out of the Jackson Ditch during his portion of the rotation, James Juan Spillett informally traded 0.20 cfs (10 inches) of his Adshead Ditch water to James V. Spillett and Robert Spillett and another 0.20 cfs (10 inches) of his Adshead water to R. Scott Weston. In return, James Juan Spillett received 0.20 cfs (10 inches) of Jackson Ditch water

under Water Right 41-13C from James V. Spillett and Robert Spillett and another 0.20 cfs (10 inches) of Jackson Ditch water under Water Right 41-13A from R. Scott Weston.

F. After this informal transfer of water was effectuated, Water Rights 41-8D and 41-13A owned by R. Scott Weston and Herbert R. Weston were acquired by KCB Farms, L.L.C.

G. James Juan Spillett desires to change the point of diversion for 0.13 cfs (6.67 inches) under Water Right 41-8B from the Adshead Ditch to Jackson Ditch and to take it out of rotation on the Adshead Ditch. He desires to divert this 0.13 cfs (6.67 inches) from Jackson Ditch in conjunction with the 0.20 cfs (10 inches) under Water Right 41-13C received from James V. Spillett and Robert Spillett, the 0.20 cfs (10 inches) under Water Right 41-13A received from R. Scott Weston, and the 0.20 (10 inches) that he claims under Water Right 41-13B.

H. In exchange for the parties consent to do so, James Juan Spillett has offered to withdraw his objection regarding Water Right 41-8B and to maintain the diversion point for the remaining 0.40 cfs (20.0 inches) under Water Right 41-8B in the Adshead Ditch.

I. To resolve the disputes that have arisen concerning James Juan Spillett's objection and his desire to take the aforementioned 0.133 cfs (6.67 inches) out of rotation, the parties hereby enter this Agreement pursuant to the following terms and conditions.

AGREEMENT

In consideration of the foregoing and the Parties' mutual promises and other good, valuable and sufficient consideration, the Parties agree as follows:

1. James Juan Spillett shall withdraw his objection filed in SRBA Subcase 41-8B and shall request that the Trial be vacated if scheduled.

2. James Juan Spillett and all parties to this Amended Agreement shall consent to the partial decree of Water Right 41-8B as recommended by IDWR, with a quantity of 0.53 cfs (26.67 inches), as more particularly described in the Recommendation attached hereto as Attachment A, subject to the conditions set forth in paragraphs 3 and 4 below.

3. All parties to this Amended Agreement shall consent to a change in the point of diversion for 0.13 cfs (6.67 inches) under Water Right 41-8B from the Adshead Ditch to Jackson Ditch and shall further consent to this 0.13 cfs (6.67 inches) under Water Right 41-8B being taken out of rotation in the Adshead Ditch.

4. James Juan Spillett agrees that he will not change the point of diversion for the remaining 0.40 cfs (20.0 inches) under Water Right 41-8B from the Adshead Ditch and hereby waives, disclaims and releases any right to do so under the Final Transfer Order described above in Recital D.

5. KBC Farms, L.L.C., and all parties to this Agreement shall consent to the partial decree of Water Right 41-13A as provided in the Standard Form 5 attached hereto as Attachment B.

6. Robert R. Spillett and James V. Spillett and all parties to this Agreement shall consent to the partial decree of Water Right 41-13C as provided in the Standard Form 5 attached hereto as Attachment C.

7. Robert R. Spillett and James V. Spillett and all parties to this Agreement shall consent to the partial decree of Water Rights 41-8E and 41-10230 as recommended by IDWR on October 29, 1999, with their points of diversion being located in the Adshead Ditch, as more particularly described in the Recommendation attached hereto as Attachments D and E, respectively.

8. James Juan Spillett further agrees to transfer ownership of 0.20 cfs (10 inches) of Adshead Ditch water under Water Right 41-8B to KBC Farms, L.L.C., and 0.20 cfs (10 inches) of Adshead Ditch water under Water Right 41-8B to Robert R. Spillett and James V. Spillett.

9. KBC Farms, L.L.C., agrees to transfer ownership of Water Right 41-13A recommended by IDWR in the amount of 0.20 cfs (10 inches) (formerly owned by Scott Westin) to James Juan Spillett, which Water Right will be partially decreed as to James Juan Spillett.

10. Robert R. Spillett and James V. Spillett agree to transfer ownership of Water Right 41-13C recommended by IDWR in the amount of 0.20 cfs (10 inches) to James Juan Spillett, which Water Right will be partially decreed as to James Juan Spillett.

11. James Juan Spillett and all parties to this Amended Agreement shall consent to the partial decree of Water Right 41-13B as recommended by IDWR as more particularly described in the Recommendation attached hereto as Attachment F.

12. Except as otherwise provided in this Agreement, it is hereby agreed that the respective points of diversion for Water Rights 41-8B, 41-8C, 41-8D, 41-8E, 41-8F, and 41-10230 shall not be removed from the Adshead Ditch without the express written consent of all parties to this agreement or their successors and assigns, acknowledging that any such change in the point of diversion will cause injury to the other parties.

13. All parties agree to execute and timely record all documents necessary to accomplish the intent of this agreement.

14. The Parties to this Agreement shall be responsible for their own respective attorney fees and costs incurred prior to the execution of this Agreement with regard to any dispute or litigation concerning the water rights mentioned in this Agreement.

15. If any Party to this Settlement Agreement is required to initiate or defend litigation against another Party to secure performance of this Settlement Agreement, the prevailing Party in such litigation, in addition to any other relief which may be granted, whether legal or equitable, shall be entitled to reasonable attorneys' fees and costs.

16. This Settlement Agreement is assignable in whole or in part without the prior written consent of the other Parties. However, any assigning Party will not be released from responsibility without the written consent of the other Parties, which may not be unreasonably withheld. Any such assignment shall inure to the benefit of the Parties, and their successors and assigns.

17. Time is of the essence in this agreement.

18. This Amended Agreement supersedes and replaces any previous agreement between the parties concerning the aforementioned water rights. To the extent any previous agreements exist, they are cancelled and replaced with this Amended Agreement by the mutual consent of the parties.

The Parties are signing this Amended Settlement Agreement on the date stated in the introductory clause.

STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

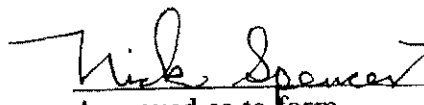

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

ADDENDUM TO AGREEMENT

The Bench Ditch Irrigation Company, respondent in SRBA subcase numbers 41-8B and 41-13B, has reviewed the Amended Settlement Agreement, attached hereto, between and among James Juan Spillett, Kelvin Taysom and Susanne Taysom, KBC Farms, LLC, Robert R. Spillett and James V. Spillett, and 7UD Ranches, concurs with its terms, and hereby withdraws its responses in SRBA subcase numbers 41-8B and 41-13B.

DATED this 21 day of December, 2006.

Bench Ditch Irrigation Company

President

ATTEST: 
Secretary

AMENDED SETTLEMENT AGREEMENT

This AMENDED SETTLEMENT AGREEMENT is entered into this ____ day of October 2006, by and between JAMES JUAN SPILLETT (as owner of Water Claim Nos. 41-8B and 41-13B), KELVIN TAYSOM AND SUZANNE TAYSOM (as owners of Water Right No. 41-8C), KBC FARMS, LLC (as owners of Water Right Nos. 41-8D and 41-13A), ROBERT R. SPILLETT AND JAMES V. SPILLETT (as owners of Water Right Nos. 41-8E, 41-13C and 41-10230), and 7UD RANCHES (as owner of Water Right No. 41-8F).

RECITALS

A. The parties to this Amended Agreement are the owners of certain water rights and/or claims as more particularly stated above and recorded by the Idaho Department of Water Resources. All of these water rights have been recommended and/or decreed with diversion points within the Adshead Ditch or Jackson Ditch located on the South Fork of Rock Creek.

B. Partial Decrees were entered for Water Right Nos. 41-8C, 41-8D, 41-8E, 41-8F and 41-10230 without objection in the year 2000. These water rights are located in the Adshead Ditch. The Partial Decrees for Water Right Nos. 41-8E and 41-10230 have been set aside.

C. With regard to Water Right 41-8B, James Juan Spillett filed a claim for 0.60 cfs (30 inches). Upon investigation, IDWR recommended that it be decreed in the amount of 0.53 cfs (26.67 inches). James Juan Spillett filed an objection to the recommendation. 7UD Ranches filed a response to the objection. It is anticipated that a trial adjudicating James Juan Spillett's claim under Water Right 41-8B will be scheduled before Special Master Terrence A. Dolan.

D. On October 1, 1992, a Final Transfer Order was entered in the Matter of Transfer No. 3519 which approved a change in the point of diversion for Water Right No. 41-8B from the Adshead Ditch to the Jackson Ditch with the condition that the transferred water "must be diverted in rotation with the other users of the Adshead Ditch."

E. Because of the Final Transfer Order and the impracticality of James Juan Spillett pumping the full quantity of the Adshead Ditch (160 inches) out of the Jackson Ditch during his portion of the rotation, James Juan Spillett informally traded 0.20 cfs (10 inches) of his Adshead Ditch water to James V. Spillett and Robert Spillett and another 0.20 cfs (10 inches) of his Adshead water to R. Scott Weston. In return, James Juan Spillett received 0.20 cfs (10 inches) of Jackson Ditch water

under Water Right 41-13C from James V. Spillett and Robert Spillett and another 0.20 cfs (10 inches) of Jackson Ditch water under Water Right 41-13A from R. Scott Weston.

F. After this informal transfer of water was effectuated, Water Rights 41-8D and 41-13A owned by R. Scott Weston and Herbert R. Weston were acquired by KCB Farms, L.L.C.

G. James Juan Spillett desires to change the point of diversion for 0.13 cfs (6.67 inches) under Water Right 41-8B from the Adshead Ditch to Jackson Ditch and to take it out of rotation on the Adshead Ditch. He desires to divert this 0.13 cfs (6.67 inches) from Jackson Ditch in conjunction with the 0.20 cfs (10 inches) under Water Right 41-13C received from James V. Spillett and Robert Spillett, the 0.20 cfs (10 inches) under Water Right 41-13A received from R. Scott Weston, and the 0.20 (10 inches) that he claims under Water Right 41-13B.

H. In exchange for the parties consent to do so, James Juan Spillett has offered to withdraw his objection regarding Water Right 41-8B and to maintain the diversion point for the remaining 0.40 cfs (20.0 inches) under Water Right 41-8B in the Adshead Ditch.

I. To resolve the disputes that have arisen concerning James Juan Spillett's objection and his desire to take the aforementioned 0.133 cfs (6.67 inches) out of rotation, the parties hereby enter this Agreement pursuant to the following terms and conditions.

AGREEMENT

In consideration of the foregoing and the Parties' mutual promises and other good, valuable and sufficient consideration, the Parties agree as follows:

1. James Juan Spillett shall withdraw his objection filed in SRBA Subcase 41-8B and shall request that the Trial be vacated if scheduled.

2. James Juan Spillett and all parties to this Amended Agreement shall consent to the partial decree of Water Right 41-8B as recommended by IDWR, with a quantity of 0.53 cfs (26.67 inches), as more particularly described in the Recommendation attached hereto as Attachment A, subject to the conditions set forth in paragraphs 3 and 4 below.

3. All parties to this Amended Agreement shall consent to a change in the point of diversion for 0.13 cfs (6.67 inches) under Water Right 41-8B from the Adshead Ditch to Jackson Ditch and shall further consent to this 0.13 cfs (6.67 inches) under Water Right 41-8B being taken out of rotation in the Adshead Ditch.

4. James Juan Spillettt agrees that he will not change the point of diversion for the remaining 0.40 cfs (20.0 inches) under Water Right 41-8B from the Adshead Ditch and hereby waives, disclaims and releases any right to do so under the Final Transfer Order described above in Recital D.

5. KBC Farms, L.L.C, and all parties to this Agreement shall consent to the partial decree of Water Right 41-13A as provided in the Standard Form 5 attached hereto as Attachment B.

6. Robert R. Spillettt and James V. Spillettt and all parties to this Agreement shall consent to the partial decree of Water Right 41-13C as provided in the Standard Form 5 attached hereto as Attachment C.

7. Robert R. Spillettt and James V. Spillettt and all parties to this Agreement shall consent to the partial decree of Water Rights 41-8E and 41-10230 as recommended by IDWR on October 29, 1999, with their points of diversion being located in the Adshead Ditch, as more particularly described in the Recommendation attached hereto as Attachments D and E, respectively.

8. James Juan Spillettt further agrees to transfer ownership of 0.20 cfs (10 inches) of Adshead Ditch water under Water Right 41-8B to KBC Farms, L.L.C., and 0.20 cfs (10 inches) of Adshead Ditch water under Water Right 41-8B to Robert R. Spillettt and James V. Spillettt.

9. KBC Farms, L.L.C., agrees to transfer ownership of Water Right 41-13A recommended by IDWR in the amount of 0.20 cfs (10 inches) (formerly owned by Scott Westin) to James Juan Spillettt, which Water Right will be partially decreed as to James Juan Spillettt.

10. Robert R. Spillettt and James V. Spillettt agree to transfer ownership of Water Right 41-13C recommended by IDWR in the amount of 0.20 cfs (10 inches) to James Juan Spillettt, which Water Right will be partially decreed as to James Juan Spillettt.

11. James Juan Spillettt and all parties to this Amended Agreement shall consent to the partial decree of Water Right 41-13B as recommended by IDWR as more particularly described in the Recommendation attached hereto as Attachment F.

12. Except as otherwise provided in this Agreement, it is hereby agreed that the respective points of diversion for Water Rights 41-8B, 41-8C, 41-8D, 41-8E, 41-8F, and 41-10230 shall not be removed from the Adshead Ditch without the express written consent of all parties to this agreement or their successors and assigns, acknowledging that any such change in the point of diversion will cause injury to the other parties.

13. All parties agree to execute and timely record all documents necessary to accomplish the intent of this agreement.

14. The Parties to this Agreement shall be responsible for their own respective attorney fees and costs incurred prior to the execution of this Agreement with regard to any dispute or litigation concerning the water rights mentioned in this Agreement.

15. If any Party to this Settlement Agreement is required to initiate or defend litigation against another Party to secure performance of this Settlement Agreement, the prevailing Party in such litigation, in addition to any other relief which may be granted, whether legal or equitable, shall be entitled to reasonable attorneys' fees and costs.

16. This Settlement Agreement is assignable in whole or in part without the prior written consent of the other Parties. However, any assigning Party will not be released from responsibility without the written consent of the other Parties, which may not be unreasonably withheld. Any such assignment shall inure to the benefit of the Parties, and their successors and assigns.

17. Time is of the essence in this agreement.

18. This Amended Agreement supersedes and replaces any previous agreement between the parties concerning the aforementioned water rights. To the extent any previous agreements exist, they are cancelled and replaced with this Amended Agreement by the mutual consent of the parties.

The Parties are signing this Amended Settlement Agreement on the date stated in the introductory clause.

STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.
