Re: Permit No. G-26668

Ivan L. Holyneux
Rt 1
Kimberly, Idaho

Dear Mr. Holyneux:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26668 shows the wellsix(are) capable of conveying 100 miner's inches, or 2.0 c.f.s. of water for the irrigation of 120 acres.

Upon receipt of the statutory fees, totaling \$ 19.00, which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ 14.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of December 24, 1956 to the use of 2.0 second feet of subterranean water with the points of diversion in the SW 1/4, Sec. 16 for irrigation of 120 acres in the S 1/4, Sec. 15; W 1/4, SE 1/4, Sec. 16; N 1/4, Sec. 22, T. 1 S., R. 20 E., P. 1.

Since your permit does include the SW 1/4, Sec. 15 and the N 1/4, Sec. 22 it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included the statutory fees will total \$15.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Very truly yours,

GEO. H. CARTER
