Re: Water Rights 47-04244 and 47-16757

Dear Sirs:

In response to the IDWR notice of October 20, 2006, see a NOTICE OF ERROR REPLY in respect to Water Right Number 47-04244 which was not included in the description of our water rights. Only one spring (47-16757) was included in the preliminary description of our water rights. There are two springs that we wish to include in this adjudication which are located about ½ mile apart. The upper spring (47-16757) located in the SE SE of Section 1, T16S R13E serves cattle watering by diversion into two ponds and domestic use at the cabin. The lower spring (47-04244) located in the NE NE of Section 12, T16S R13E is diverted into a water tank for cattle watering.

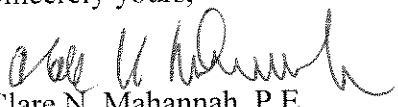

Please note that my correct address is: Clare Mahannah, Water Research and Development, Inc., P.O. Box 5007, Reno, Nevada 89513. My work telephone number is 775/ 747-1100 and home number is 775/849-0823.

Included in this correspondence is the NOTICE OF ERROR REPLY, Correspondence of August 21, 1998 change of ownership and amended water right claim including a map showing the location of the two water rights, A notice of claim to the water right A47-04244 dated 06/02/88, A late Domestic & Stockwater claim of 10/2/98. These latter three documents are only included to assist in sorting these water rights.

I apologize for the late submission of the Notice of correction. I was in the hospital for the whole month of November and am now trying to recover from a bout with colon cancer. I hope the correction can be made between IDWR and myself without going the Court alternative. If I can provide additional documentation or background, please do not hesitate to contact me at your earliest convenience.

Thank you for your assistance.

Sincerely yours,

Clare N. Mahannah, P.E.
