Re: Change of ownership notes for Hust to Huston

Sally, this looks ok to change. The only thing I noticed on it is that the name connector on the c/o and on the deed is "and" but only one of them signed the change of ownership form. However, I double checked with Carter and he said it is community property and on the c/o, one can sign for it.

So lets change 67-544C.

However, it appears that domestic Right 67-10816 is applicable to their property too, but it is partially decreed and they didn't send any fees for it.

I am sending them a letter telling them we are processing 67-544C, but it looks like they have the other one and they need to send it in with fees...etc....
