RE: Le Roy Fairchild/Martin rights

Dear Mr. & Mrs. Martin,

After talking with our Deputy Attorney General, Nick Spencer, it is the Department's understanding, according to the deed submitted with the ownership change, that Mr. Fairchild intended to keep the rights out of Fairchild Spring, 45-575 and 45-619, in their entirety, and split the other rights proportionately between the acres he retained and the acres you purchased. (45-575 is for stock water storage, irrigation, stock water, and domestic uses and 45-619 is for irrigation.) He retained ownership of the rights but did not file a transfer to move them to the property he retained, or somewhere else. These two rights should still be shown as appurtenant to the entire 35 acres they were originally decreed to in the Basin Creek Decree. The portion of the rights still appurtenant to the acres you purchased could eventually be lost if a transfer of the place of use is not filed by Mr. Fairchild within five years of the partial decree.

If this was not the intention of your agreement, then perhaps both parties should get together with their attorneys and execute new warranty deeds. (I will also be sending a letter to Mr. Fairchild regarding this matter.)

I will be out of the office next week, but give me a call the following week if you have any questions.

Sincerely,

RE: Le Roy Fairchild/Martin rights

Dear Mr. Fairchild,

After talking with our Deputy Attorney General, Nick Spencer, it is the Department's understanding, according to the deed submitted with the ownership change, that you intended to keep the rights out of Fairchild Spring, 45-575 and 45-619, in their entirety, and split the other rights proportionately between the acres you retained and the acres purchased by the Martin's. (45-575 is for stock water storage, irrigation, stock water, and domestic uses and 45-619 is for irrigation.) You retained ownership of the rights but did not file a transfer to move them to the property you retained, or somewhere else. These two rights should still be shown as appurtenant to the entire 35 acres they were originally decreed to in the Basin Creek Decree. The portion of the rights still appurtenant to the acres you sold could eventually be lost if a transfer of the place of use is not filed within five years of the partial decree.

If this was not the intention of your agreement, then perhaps both parties should get together with their attorneys and execute new warranty deeds. (I will also be sending a letter to the Martin's regarding this matter.)

I will be out of the office next week, but give me a call the following week if you have any questions.

Sincerely,

| _____          | ) | <b>ORDER OF REFERENCE TO SPECIAL<br/>MASTER TERRENCE A. DOLAN</b> |

On November 29, 2006, this Court received correspondence regarding the possible errors in the *Partial Decrees* for the above-captioned water right claims. A copy of the correspondence is attached to this *Order*. The original of the correspondence was file stamped, docketed as received, and lodged in the subcase file. Where the water right claim was previously uncontested, a subcase file was created for the correspondence. Where a partial decree was previously entered for the water right claim, the partial decree was also included in the subcase file.

**THE FOLLOWING ARE HEREBY ORDERED:**

1. That Terrence Dolan is appointed Special Master to preside over the above-captioned water right claim for the following purposes:

a. To determine the intended purpose of the correspondence and the legal significance of the correspondence, if any. For example, the Special Master may determine whether the correspondence constitutes a motion to correct a clerical error pursuant to I.R.C.P. 60(a), or a motion to set aside a partial decree pursuant to I.R.C.P. 60(b), etc.;

b. To determine whether the correspondence complies with *SRBA Administrative Order 1 (AOI)* and the Idaho Rules of Civil Procedure or whether additional time should be granted to allow the party to file an appropriate motion with the Special Master and/or to obtain counsel in the matter; whether the matter should be dismissed on its face; or to

determine whether the matter would be more appropriately processed administratively through the Idaho Department of Water Resources;

c. If the correspondence is ultimately deemed a sufficient motion, or in the event a new motion is filed in compliance with the applicable rule(s), the Special Master shall conduct all proceedings necessary to issue a recommendation as to the underlying merits. For example, if the Special Master concludes a partial decree should be set aside or amended, the recommendation should not only include that the partial decree be amended or set aside, but should also include how the elements of the water right should be partially decreed.

2. The original of this *Order* shall be placed in the subcase file and the file transferred to the Special Master for proceedings consistent with this *Order*.

3. The Special Master shall issue a *Special Master's Report and Recommendation* on the matter consistent with *AOI*.

IT IS SO ORDERED.

To Whom It May Concern,

I Leroy Fairchild request that Partial Decrees 45-574, 45-575, 45-576, 45-618, and 45-2658 in the name of Harold and Anne Martin be set aside due to the reason that I retained a portion of the place of use and all of the spring known as Fairchild Spring when the north  $\frac{3}{4}$  of the NE/SW Sec. 33 T. 13SR. 23E was sold to the Martins in 1995.

According to IDWR a letter was sent to me regarding the change of water right ownership that was filed in 2002 by the Martins in reference to the water right ownership purchased by Martins in 1995; however, I never received said letter because of problems with the mail delivery that was occurring in Oakley at the time. Therefore, I was never aware that all of these claims went entirely to the Martins until a few months ago.

I would appreciate any help in resolving this matter that you can give.

Sincerely,

Leroy Fairchild

Re: Ownership Change to Martin

Dear Mr. Fairchild,

I have been reviewing adjudication claims in the area and came across this ownership change from you to Martin back in 1995. On the form, the question asked if the change resulted in a splitting of the water rights and NO was checked. However, in the warranty deed, it looks like you retained the S  $\frac{1}{2}$  of the S  $\frac{1}{2}$  of the NESW of Section 33, T 13S, R23E (about 10.5 acres) and the water rights appurtenant to them. (The deed also mentions specifically water rights from Fairchild Canyon Spring Creek.)

There are six water rights appurtenant to 35 acres in the NESW with sources of Mill Creek, Spring Creek, Fairchild Springs, and ground water. The ownership was changed to Martin on all of them, but perhaps some or all of them need to be split? If so, how many of the 35 irrigated acres should go to each of you? Please give me a call at the office so we can straighten this out. (I will also contact Mr. & Mrs. Martin).

Sincerely,

Jeanie Robertson
