Subject: IWRB Instream Flow Claims/Fees

The IWRB has an existing time payment obligation to make the third of five payments for the first ten instream flow claims filed by the IWRB. This obligation is \$572,040 principal payment and about \$171,600 in interest, depending upon the time of the FY91 payment. The outstanding balance for this account is \$1,716,120 plus interest at 10% per year beginning on August 22, 1989.

The IWRB has filed a claim for Devil's Corral Springs in FY90 and paid the entire fee of \$4,850. This claim is not a part of any present or future payment plan.

The IWRB has asked for an appropriation to file the claims below during FY91. The recommendation in the Governor's budget and in our agency request is for \$74,200 to make the first of five payments for these claims. Some interest has been expressed in paying the claim fees in full from surplus and the entire fee amount is shown should that alternative be selected.

36-08374 ✓	Crystal Springs	2,550 ✓	510
		371,150 ✓	74,230

In summary, IWRB has an obligation to make a payment for the claims already filed. That payment for FY91 will be about \$743,650 with the amount varying slightly depending on the interest due. If this time payment account were to be paid out the payment would be about \$1,887,730 if paid August 21, 1990. Additionally, the IWRB is seeking an appropriation to file seventeen additional claims. The payment plan amount and the total fee amount for the seventeen claims are shown above.
