	)	
Case Number: 39576	)	AFFIDAVIT OF CAROL MCCOY BROWN
_____	)	

State of: IDAHO
County of: VALLEY

Carol McCoy Brown, being first duly sworn upon oath, deposes and says:

1. I am currently employed by the United States Department of Agriculture, Forest Service (Forest Service), as the District Ranger on the Cascade Ranger District of the Boise National Forest. I have been employed by the Forest Service for 16 years.

2. As part of my assigned duties and responsibilities as the District Ranger on the Cascade Ranger District I am familiar with and use Thunderbolt Lookout.

3. I have reviewed the reserved water right claim, attached as Exhibit 1, submitted by the Forest Service for Thunderbolt Lookout (Claim).

4. The Claim was prepared by Forest Service personnel as part of their normal duties. I verified the legal locations as set forth and described in Exhibit 1 and have personal knowledge that the location of the point of diversion and place of use and source of the water supply are true and correct as described in Exhibit 1.

5. The Claim is situated wholly within National Forest System lands. It is currently utilized by the Forest Service at Thunderbolt Lookout to manage National Forest System lands.

6. The Claim is necessary for the administration of the National Forest pursuant to the Organic Administration Act of 1897, 16 U.S.C. § 475 *et seq.*, for the purposes of securing favorable conditions of water flow and to furnish a continuous supply of timber.

7. The United States filed this Claim for use in association with Thunderbolt Lookout, an Administrative Site located in a remote part of the Boise National Forest. The administrative site is a 16 by 16 foot two story lookout on a mountain top. It is used every year for administration of National Forest resource management programs. Personnel utilize water at this site for administrative purposes. Occupation and use of Thunderbolt Lookout is essential to the overall administration of Forest Service programs on this part of the Boise National Forest. The primary purpose is fire: fire detection, fire suppression, fire management and fire prevention to improve and protect the forest from destruction by fire, thereby ensuring continuing viability of the resources on surrounding federally reserved National Forest System land. Prevention of

depredation by fire contributes directly to other resource programs and conditions such as watershed protection, preservation of timber stands, wild land character, recreation access and public safety thereby directly contributing to the maintenance of and improving watershed conditions, timber production and favorable conditions of water flow.

8. Based upon personal experience and knowledge, discussions with Forest Service personnel and review of relevant Forest Service records, including but not limited to, on-site inspection records, water has been historically, and is presently utilized at Thunderbolt Lookout in quantities up to and including 0.02 c.f.s. during the period of June 1 through October 31, as described in Exhibit 1.

9. Based upon the forgoing, I have personal knowledge of the following elements of the reserved water right claim:

a. The name and address of the claimant is:
