Counsel for the United States of America

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE

STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	)	Subcase No. 77-13922
	)	
Case Number: 39576	)	AFFIDAVIT OF CAROL MCCOY BROWN
_____	)	

State of: IDAHO
County of: VALLEY

Carol McCoy Brown, being first duly sworn upon oath, deposes and says:

1. I am currently employed by the United States Department of Agriculture, Forest Service (Forest Service), as the District Ranger on the Cascade Ranger District of the Boise National Forest. I have been employed by the Forest Service for 16 years.

2. As part of my assigned duties and responsibilities as the District Ranger on the Cascade Ranger District, I am familiar with and use Johnson Creek Guard Station.

3. I have reviewed the reserved water right claim, attached as Exhibit 1, submitted by the Forest Service for Johnson Creek Guard Station (Claim).

4. The Claim was prepared by Forest Service personnel as part of their normal duties. I verified the legal locations as set forth and described in Exhibit 1 and have personal knowledge that the location of the point of diversion and place of use and source of the water supply are true and correct as described in Exhibit 1.

5. The Claim is situated wholly within National Forest System lands. It is currently utilized by the Forest Service at Johnson Creek Guard Station to manage National Forest System lands.

6. The Claim is necessary for the administration of the National Forest pursuant to the Organic Administration Act of 1897, 16 U.S.C. § 475 *et seq.*, for the purposes of securing favorable conditions of water flow and to furnish a continuous supply of timber.

7. The United States filed this Claim for use in association with Johnson Creek Guard Station, an administrative site located in a remote part of the Boise National Forest. The administrative site includes a two story cabin, a garage, a storage building, a horse pasture and other capital improvements. A recreation person is normally housed at this site each summer. It is also used by other employees throughout the year as needed. It was used as a fire camp during recent fire campaigns in 2004 and 2006. It is used every year by the Forest Service to administer National Forest resource management programs. Personnel utilize water at this site for administrative purposes. Occupation and use of the

site is essential to the overall administration of Forest Service programs on this part of the Boise National Forest. Occupancy by fire personnel contribute to fire suppression, fire management and fire prevention to improve and protect the forest from destruction by fire, thereby ensuring continuing viability of the resources on surrounding federally reserved National Forest System land. Administration of NFS programs and employee presence in the area serves to protect the forest from fire and other depredations and destruction. It contributes directly to other resource programs and conditions such as watershed protection, preservation of timber stands, wild land character and public safety thereby directly contributing to the maintenance of and improving watershed conditions, timber production and favorable conditions of water flow.

8. Based upon personal experience and knowledge, discussions with Forest Service personnel and review of relevant Forest Service records, including but not limited to on-site inspection records, water has been historically, and is presently utilized at Johnson Creek Guard Station in quantities up to and including 0.02 c.f.s. during the period of January 1 through December 31, as described in Exhibit 1.

9. Based upon the forgoing, I have personal knowledge of the following elements of the reserved water right claim:

a. The name and address of the claimant is:

UNITED STATES OF AMERICA acting on behalf of the U.S.D.A. Forest Service, 550 W. Fort Street, MSC033, Boise, ID 83724.

b. The source of water is:

Groundwater

c. The location is:

1) point of diversion:

B.M., T. 18 N, R. 8 E, S. 4 NWSE.

2) places of use:

B.M., T. 18 N, R. 8 E, S. 4 NWSE.

d. The quantity of water is:

0.02 c.f.s.

e. The period of use is:

January 1 through December 31

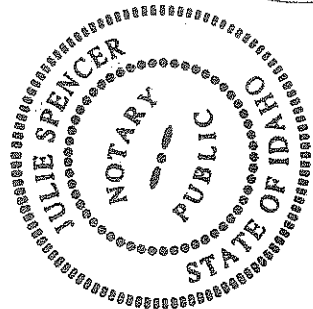

f. The purpose of use is:

Administrative purposes at Johnson Creek Guard Station.

Dated this 5th day of February 2007.
