To whom it may concern,

I Lou Scarlett would like to ask permission to file a late objection for the above named water right 24-4006.

The reason for objections ~~were~~ brought to my attention by Cindy Bird of the I.D.W.R. February 2007 what I'm objecting to is shown on the map, prepared by A. Colart September, 2006. This map shows a recommended boundary that includes property I do not own. This recommended boundary also takes away from the historical right, I did have, to irrigate the 128 acres of farmable ground, that I do own. The crops I plant do not need irrigation every year. It varies depending on the rotation of crops planted. I just did not catch this earlier, and my understanding of what the recommended boundary represented was not correct.

I am asking that you please consider my request to expand the recommended boundary. The boundary would include the 128 acres I have always been eligible for in the past. It would exclude what I do not own, and include a point of diversion I used to have. The map showing this acceptable boundary was prepared by Cindy Bird February 2007. Thank You! for your time in considering my request.

Sincerely,
Lou Scarlett
