OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

The Director retains jurisdiction of this right to require streamflow augmentation or other action determined to be appropriate to protect prior surface water or ground water rights. Such stream flow augmentation or other action will be required only upon a determination of need and applicability by the Director.

This right is a split from former right 63-9179C.

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The right holder shall accomplish the change authorized by Transfer 69920 within one (1) year of the date of the approval..

After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
