

TESTED

The figure consists of a 10x10 grid of small images. Each image shows a handwritten digit '4' on a black background. The images are arranged in a sequence that suggests a process of denoising or refinement. The top-left image is very noisy and pixelated. As you move from left to right and top to bottom, the digit becomes progressively clearer, smoother, and more recognizable. The bottom-right image is the most refined and clear representation of the digit '4' in the set.
