OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Right not claimed in prior adjudication.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Water right 21-13051 is a portion of claim number 21-10019, which is being recommended as a separate beneficial use water right with a junior priority date.

Right not claimed in prior adjudication. This is included for a claim that is proposed to be disallowed because rights to water from the source claimed were determined in a prior general adjudication. The right was not decreed in the prior adjudication, and the claim cannot be recommended based upon beneficial use.
