

NOTES

10-16-06

01-224 was decreed to Oscar Nord. He transferred 0.2 d/s to NWNE of Sec 30 leaving 1.4 d/s on the original property in 1958. Wydell Johnson claims the transferred portion in an adjacent 89 since 1960 and through a different FID. Kite and Nord Ditch also claim this right in combination with 01-224A.

Water District Records show that this right is delivered through the Kite and Nord Ditch, which cannot irrigate the claimed land. If Mr. Johnson owned this right, then it would have been delivered through the Rudy Canal according to the WD records. Disallow.
