Cindy visited with Mark in connection with the Kennington claims. He mentioned that Hartman Ranch was being bought by a third party.

I called and visited with Mark advising that we had talked to Hartman's attorney in Idaho Falls and was informed that they no longer represented the Hartmans, at least in this matter, and that Mr. Hartman said he wasn't going to do anything about the water rights because he was in the process of selling it and was going to let the new owners worry about the evidence.

Mark advised that the people that were under contract to buy the Hartman ranch backed out but there were new potential buyers. He asked what was needed I advised that evidence of ownership and usage was needed back to the priority dates of 1888 and 1903. I also stated that without this evidence this claims could be recommended to be disallowed.

He said he would make a few calls and get back to me. I told him that unless we heard something, we were in the process of sending the Hartmans a letter stating that unless evidence was supplied, the claims would be recommended to be disallowed.

He is to get back to us.
