

MEMORANDUM

TO: FILE NO. 24-04016

FROM: PAM SKAGGS^{PS}/STATE OFFICE

SUBJECT: TRANSFER NO. 5040

DATE: September 17, 1997

=====

Transfer No. 5040 changes the place and nature of use under Right No. 24-04015. The irrigated acres are shifted slightly to reflect the acres confirmed through SRBA investigation. Two QQs (S1/2SE, S21) were apparently claimed in error and never irrigated under this system. 12.6 acres will cease irrigation to compensate for the new recreation use through 2 ponds.

This right is a statutory claim with a high rate of diversion. The rate is split disproportionately between the remaining irrigation and the recreation use. Season of use and diversion volume were identified at current standards. The recreation use is limited to the diversion volume available from the 12.6 acres taken out of production.

Recommended conditions include non-confirmation of claim, irrigation overlap and standard transfer conditions.
