Dear Peter: Mr. G. Raymond Hall, who made application No. 044243 has sent me your notice to him for water hole affidavit, and mineral waiver. He lives on Crow creek, and I doubt if he can get out now until the roads are passable, as there is no notary there. So I want to ask that he be given an extra 30 days if he is unable to get these matters to you sooner. I imagine you will hold his application anyway until No. 044199 is disposed of. But he will furnish the other as soon as he can get over the roads. Anyway please dont close him out until he has a chance to get these papers to you.

I have written him to come out as soon as he can.

issued, 19

1. Date of examination: June 13, 1934.

2. Character of land: level to rough. About 20 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21 is cultivated and wild hay raised upon it. Too marshy to farm. About $\frac{1}{2}$ of the entry could be dry farmed, but most suitable for grazing. Land is located on Crow Creek in Caribou County, Idaho. No timber. No mineral.

3. Residence and cultivation: Careful investigation and inquiry shows the entryman lived upon his entry for approximately 7 months during the years 1929 and 1930. Also that he lived continuously upon the entry from the spring of 1931 to the fall of 1933. Entryman's family also resided upon the land with him. No one was living at the place at the time of my investigation. Cultivation: Entryman cuts about 20 acres of wild hay and has about 10 acres of dry land alfalfa in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21.

4. Improvements: Entryman has a habitable house (2 room log cabin), in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21. There is also a barn 18'x 18', a corral made of wire and poles about 40' square. There is also a well. All of the above improvements are in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21. Entryman has land completely fenced and cross fenced. There are not less than 1760 rods of this fence. It consists of 2, 3, and 4 galvanized barb wires attached to aspen posts less than 1 rod apart. Most of the fence is 3 wires. I value this fence at not less than \$200.00 per mile or \$1100. There are also several hay barns. Total value of improvements, not less than \$1250.

5. Other material facts: There is a nice stream of water in the NE $\frac{1}{4}$ Sec 28. There is also a salt water seep or spring in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21. This entry was examined and reported by Special Agent Joyce on Sept. 20, 1933 and Oct. 24, 1933. A reexamination was requested by the Director's letter of December 4, 1934.

6. Recommendation: It is respectfully recommended that the above entry be clear listed and patent be issued the entryman.

Register and Receiver,
United States Land Office,

Gentlemen:

I, _____, of _____
(Name of entryman.) (Post-office address.)
am the same person who made Homestead Entry No. _____ at the _____
_____ office on _____, 191____, for
_____ Section _____,
Township _____, Range _____, Meridian _____.

I hereby give notice that I returned to the land above described on
_____, 191____. My absence began on _____, 191____.

(Signature of entryman.)

NOTE.—The first proviso to sec. 2291, R. S., as amended by the act of June 6, 1912 (37 Stat., 123), is as follows:

"Provided, That upon filing in the local land office notice of the beginning of such absence, the entryman shall be entitled to a continuous leave of absence from the land for a period not exceeding five months in each year after establishing residence, and upon the termination of such absence the entryman shall file a notice of such termination in the local land office, but in case of commutation the fourteen months' actual residence as now required by law must be shown. * * *"

The only entrymen who are entitled to the benefits of the above are those whose entries were made of record on or subsequent to June 6, 1912, and those whose entries were made prior to that date but who intend to submit final proof under the law as amended by the act of that date.

Extract from the regulations issued by the Department February 13, 1913 (Circular No. 208):

(11) After the establishment of residence the entryman is permitted to be absent from the land for one continuous period of not more than five months in each year following, provided that upon absentsing himself for such period he has filed in the local land office notice of the beginning of such intended absence. He must also file notice with the local land office upon his return to the land following such period of absence.

(12) In according such extended periods of absence the Congress has dealt liberally with the homestead entryman, and bona fide continuous residence during the remaining portions of the three-year period must be clearly shown.

(13) A second period of absence immediately following the first period, even though the two periods occur in different years, reckoned from the date of the establishment of actual residence, will not be recognized, as it was never contemplated that an absence was permissible in excess of six months in view of the specific provisions for contest provided for in section 2197 of the Revised Statutes. There should be at least some substantial period of actual continuous residence upon the land separating the periods of absence accorded under the statute. Only those protracted absences with respect to which notice has been given as required by the statute will be respected either in case of contest or on final proof. This law does not repeal or modify the acts of March 2, 1889 (25 Stat., 854), June 25, 1910 (36 Stat., 864), and April 30, 1912 (37 Stat., 105).
