This is in response to your letter,
RE: Investigation of Water Right Claims in the Snake River Basin Adjudication.

We are ready and willing to assist you in your field investigation as you requested. You are welcome to contact me, Grant Kennington, 28151 Burrough Valley Rd. Tollhouse, CA. 93667 (559-855-6465) or Lynette Beus, Box 30, Fairview, WY. 83119. The property is owned by our family trust.

Several years ago a similar request was made. Our father, G.H. Kennington, the owner at the time, provided the information you requested and received back Adjudication Claim Profile Reports which appeared to properly identify and describe the water used and associated with our ranch.

The property has been in the family for many years and water has been used all that time. One section was homesteaded by our grandfather, Fred Beyeler and another section homesteaded by our father, G.H. Kennington. There is some additional property that was purchased by our grandfather which has been irrigated that long as well.

I'll provide you with numbers from the Adjudication Claim Profile Reports which might help you with your research. There are five reports all with "AJ0749NP" in the upper right corner. Below this number on each page is a unique number. They are: 24-04000, A24-04018, A24-04019, A24-040020 and A24-04022.

We hope this will help you. Let us know if there is more we can do.

Grant Kennington
