Claim 24-4023

Subject: CLARIFICATION ON EVIDENCE OF PRIORITY

Response Date: 1 April 2005

Dear Claimant(s),

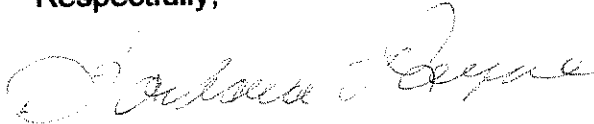

Thank you for calling our office in response to missing documentation. I have prepared a timeline listing the documents that we have received and how they fit into the "big picture". The timeline list the property conveyed. I have compared the property descriptions with the claimed place of use as listed in the claim. I am enclosing a copy of the Notice of Claim to a Water Right for your reference. Within the timeline I have underlined the quarter-quarters listed in the claim. Not all of the property claimed has been conveyed. For clarification purposes, I have included a portion of an old map outlining the claimed quarter-quarters is red. Please review this timeline and compare it to the drawing as you determine which documents will provide the missing links.

We have also received a portion of a document entitled Camino Escrow, Inc. that list property and is accompanied by a map. It is apparently the Exhibit "A" and does not provide sufficient evidence linking the conveyance of the property from one party to another.

The missing documents that link these documents from the claimed priority date of June 1, 1932 to the Trust as current owners are needed before we can proceed with the review of recommending this claim to the Court. Hopefully this information will assist you in providing the needed documentation.

Please submit the documentation by the above response date referencing all documents with the corresponding Notice number. If you have any questions not covered by this, please feel free to contact me at 547-3993.

Respectfully,

Claim 24-4023

Subject: CLARIFICATION ON EVIDENCE OF PRIORITY

Response Date: 11 MARCH 2005

Dear Claimant(s),

Thank you for your letter dated February 10 and the accompanying documentation. However, these documents do not fully provide a clear chain of the evidence of priority. The claimed Place of Use is within T8S, R46E, Section 27, 34 and 35, which is located in the State of Idaho.

No evidence has been provided that supports evidence of priority from the claimed priority date of June 1, 1932 to the present. Portions of two of the documents we have provide a portion of the chain of ownership. They are the Indenture dated 8/12/1977 and the Warranty Deed, dated 6/1/1990. Additional documents that link these documents from the claimed priority date of June 1, 1932 to the Trust as current owners are needed before we can proceed with the review of recommending this claim to the Court.

Please submit the documentation by the above response date referencing all documents with the corresponding Notice number. If you have any questions not covered by this, please feel free to contact me at 547-3993.

Respectfully,

Barbara Payne

Claim 24-4023

Subject: EVIDENCE OF PRIORITY

COPY

Response Date: 12 February 2005

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 24. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). We have received the Notice of Change in Water Right Ownership, a copy of the Warranty Deed from Gold Coast Exchange, Inc. to Richard Lagomarsino and Ramona Lagomarsino, and a copy of a drawing identify numerous sections of land. However, we need documentation that shows a clear chain of ownership from the claimed priority date of June 1, 1932 to you as current claimants. The Warranty Deed that you sent with the Notice of Change in Water Right Ownership identifies who you purchased the property from, which is not the former claimant, William B. Robinson.

The Notice indicates the claim is based on statutory use. Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion

rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

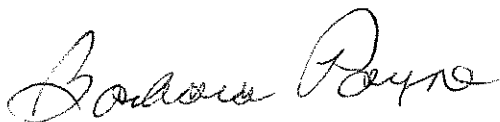

For your reference, I have enclosed the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some examples of Documents Which May Be Evidence of the Priority Date**".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by the above noted response date referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Barbara Payne

RE: SRBA Claim 24-4023

I have inclosed papers showing the progression of ownership of the property as outlined in Claim 24-4023.

Hugh Bagley homesteaded the property in 1927. Hugh sold it to Phillips who sold to Robison who sold to Taft who sold to me.

We are awaiting additional papers regarding the Taft acquisition from Robison however no one has responded as yet to our request. Should I receive additional information I will forward it to you immediately.

I trust that the inclosed information will be sufficient for you to verify our current ownership and water rights to the property.

Dear Claimant(s),

We have been advised that you are the current owner of the property and water right referenced above. Before we can modify our records to reflect your ownership of the property, we need Form 42-248/42-1409(6) completed, signed and returned. I have enclosed the form for your convenience.
