

Split/Overlap Analysis - Water Right No.: 74-2047B

[illegible]

MVB notes 4/4/2007:

74-15442 - I think cfs is over-recommended. 1 inch per acre would be 0.08 cfs.

74-2047E - Not in decreed QQ. Recommended for stock. Already partially decreed.

74-2047G - is currently disallowed. Can find about 4 acres of irrigated land in taxlot. Mr. and Mrs. Guth have filed an objection.

74-2047P - is recommended at greater cfs than claimed (0.09 v. 0.056)

Acreage un-recommended:	13.9
CFS un-recommended:	0.64
