- ☐ This water right was not recommended, but should be recommended with the elements described above.

**E. REASONS SUPPORTING OBJECTION (S):** A dispute over a land transfer exists. During the pendency of the dispute the Department should maintain the status quo regarding ownership of the water right. In approving this water right and disapproving water right no 63-31194A, the Department is making a legal conclusion on whether the land transfer included the water right.
