RE: Address Change

On February 28, 2007, I received a request for change of address from the Operations Director of Ada County Parks and Waterways, Dave Logan. Mr. Logan requested I change the address on 63-8194.

After determining there were several rights under Parks and Waterways, I called Mr. Logan on March 6, 2007. He told me he'd check it out and call me back. I called him again on April 19, 2007, and helped him on our website. He asked me just to walk on over and we'd work together, which I did.

He told me he'd be meeting later that morning with Commissioner Robert Batista, who had submitted an address change request on February 27, 2007, that I hadn't seen.

On April 20, 2007, Dave Logan called me and asked me to change all the Parks and Waterways water rights to the new address, which I have done.
