

**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA)

Case No. 39576)

A. Subcase 01-00237
(Insert water right number)

**STANDARD FORM 1
OBJECTION**

Please fill in the following information:

B. NAME AND ADDRESS OF PERSON OBJECTING

Name: United States of America acting through the Department of Interior,
Bureau of Land Management, Idaho State Office

Address: 1387 South Vinnell Way
Boise, Idaho 83709-1657

Daytime Phone: see below

Name & Address of Attorney, if any:

Larry A. Brown (202) 305-0435 phone, (202) 305-0274 fax
United States Department of Justice
Environment and Natural Resource Division
General Litigation Section
550 West Fort Street, MSC 033
Boise, Idaho 83724

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: Lowder Slough Canal Co ; c/o Lois Poole

Address: 4483 E. 400 N.; Rigby, Idaho 83442

Name:

Address: ;

Name:

Address: ;

Name:

Address: ;

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**
Should be:
2. ☐ **Source**
Should be:
3. ☐ **Quantity**
Should be:
4. ☐ **Priority Date**
Should be:
5. ☐ **Point(s) of Diversion**
Should be:
6. ☐ **Instream Flow Description**
Should be:
7. ☐ **Purpose(s) of Use**
Should be:
8. ☐ **Period of Year**
Should be:
9. ☒ **Place of Use**
Should be: See attached.

11. **I object because:**

- ☐ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

The United States of America, through the Bureau of Land Management, is the owner of the land upon which a portion of the use is claimed. The claimant's use of Federal land is unauthorized. Claimant's water right should not include federal public land.

F.

VERIFICATION (Must be Completed)

POU:

-The Digital Boundary Place of Use describes BLM land that is not authorized for irrigation activities.

SOURCE: SNAKE RIVER

TRIBUTARY: COLUMBIA RIVER

Water is delivered from the Dry Bed.

QUANTITY: 33 000 CFS

PRIORITY DATE: 01/22/1916

POINT OF DIVERSION: T04N R40E S29 NENENW Within JEFFERSON County

PURPOSE AND PERIOD OF USE:

PURPOSE OF USE
IRRIGATION

PERIOD OF USE
04/01 10/31

QUANTITY
33 000 CFS

PLACE OF USE:

987 ACRES TOTAL

Place of use is within the area served by Lowder Slough Canal Company

**BLM land
inside
Digital
Boundary**

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I C Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree Section 42-1412(6), Idaho Code

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

Water is delivered through Lowder Slough Canal

Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.

Survey Pending Group No. 816
Partial Tp.

[illegible][illegible]

1. *Staphylococcus aureus* (ATCC 12228) was grown in 10 ml of TSB medium containing 100 µg/ml penicillin, 100 µg/ml streptomycin, and 100 µg/ml nystatin. The cells were harvested by centrifugation at 5000g for 10 min and resuspended in 1 ml of distilled water. The cells were then lysed by sonication and the DNA was extracted by phenol extraction. The DNA was then precipitated with ethanol and resuspended in 100 µl of distilled water.

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes of the problem. Once the causes of the problem have been identified, the next step is to develop a plan to address the problem. This involves identifying the actions that need to be taken to address the problem and determining the resources that will be needed to implement the plan. Once a plan has been developed, the next step is to implement the plan. This involves taking the actions that have been identified in the plan and ensuring that the resources are available to implement the plan. Finally, the last step in the process is to evaluate the results of the plan. This involves determining whether the plan has been successful in addressing the problem and identifying any areas for improvement.

Table 1 The mean and standard deviation of the variables used in the study

1. The first step in the process of identifying a problem is to recognize that a problem exists. This is often done by comparing current performance with a desired state or goal. If there is a significant difference, a problem is identified.

[illegible][illegible][illegible][illegible]

Figure 1: A schematic diagram of a 1D lattice chain. The chain consists of two parallel horizontal lines of dots representing lattice sites. The top line has 10 dots, and the bottom line has 10 dots. Vertical lines connect corresponding dots between the two lines, representing nearest-neighbor interactions. The leftmost dot on the top line is labeled '1', and the rightmost dot on the bottom line is labeled 'N'. The chain is labeled '1D Lattice Chain' at the bottom.

[illegible]

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: a control group and an experimental group. The control group received a standard 10-minute rest period, while the experimental group received a 10-minute rest period followed by a 10-minute rest period. The subjects were then divided into two groups: a control group and an experimental group. The control group received a standard 10-minute rest period, while the experimental group received a 10-minute rest period followed by a 10-minute rest period.

[illegible]

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. Next, it is important to gather relevant information and data. This can be done through research, consultation with experts, or by analyzing existing data sets.

3. Once the information is gathered, the next step is to analyze it and identify the key factors that influence the outcome. This often involves using statistical methods or other analytical tools.

4. After analysis, the next step is to develop a plan or strategy to address the problem. This plan should be based on the findings of the analysis and should take into account the constraints and resources available.

5. Finally, the plan is implemented, and the results are monitored and evaluated. This step is crucial for ensuring that the solution is effective and for making any necessary adjustments.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The first step is to identify the variables involved in the problem. In this case, the variables are the number of hours worked (H) and the number of hours of leisure (L). The total number of hours available is 24 hours per day, so we have the constraint $H + L = 24$.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

[illegible]

1. The following are the names of the persons who have been appointed to the various committees of the Board of Directors of the Corporation for the year ending December 31, 1998:

1. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
