RE: Objection to recommendation for SRBA claims 67-10483, 67-14837 and 67-14838

Dear Mr. Woods and Ms. Pursifull:

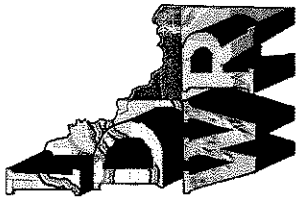

Per an objection filed by Mr. Woods, I have been reviewing the above-mentioned claims. There are two sections to Mr. Woods' objection: ownership and acreage. As to ownership, it appears we made a mistake in the initial recommendation. According to the deed submitted by Mr. Woods, the southern portion of the property should have been recommended in his name and the northern portion of the property should have been recommended under Ms. Pursifull's name. The enclosed map shows the correct ownership.

Mr. Woods also objected to the acreage under each recommendation, stating 67-14837 (Pursifull) and 67-14838 (Woods) should each have been recommended for 5 acres. I have re-examined the taxlot data and the imagery available and can see evidence for making a change. I am including a map showing revised places of use for 67-14837 and 67-14838, along with revised flow rate for each claim. I believe this more accurately represents the intention of the original claim.

Please review the information enclosed and, when ready, contact me at (208) 287-4907 and let me know if you agree with my analysis or have any questions. At that time, whether we agree or disagree, I will contact our legal staff regarding the next steps we need to take to resolve the objection.

Respectfully submitted,
