Source is from Marsh Creek, a tributary of the Snake River.

Amount is for the diversion of 150 cfs.

4. Foster Decree Return Flows

⁷ This natural flow water right was established by decree of the Fourth Judicial District of Idaho on June 20, 1913 in the case of Twin Falls Canal Co. v. Charles N. Foster as Right No. 8 of The United States at p. 33.

a. Allocation of Foster Decreed Return Flows Credits

In reliance upon the Foster Decree (Twin Falls Canal Company v. Charles N. Foster, et al., in the District Court of the Fourth Judicial District of the State of Idaho, in and for the County of Twin Falls, dated June 20, 1913), The United States claims a credit against the use of stored water for increased flows in the Snake River attributable to the operation of the Gravity Division and the Southside Pumping Division of the Minidoka Project as determined by the State Engineer of the State of Idaho (Director, Idaho Department of Water Resources), or his duly authorized agent.⁸

The United States conveys that portion of the right arising from the operation of the Southside Division (approximately thirty-eight percent [38%]) to Burley. The use and accounting of the return flow shall continue in a manner that will not injure the rights of the Minidoka Project or its water users. Current practice for the division of the right considers the proportionate diversions of Burley and Minidoka after ad hoc agreements on the monthly division of waste and losses from the Minidoka Southside Canal. If Burley and Minidoka fail to agree on the division of waste and loss or on the procedure to be used, thirty-eight percent (38%) of the credit will accrue to Burley, and sixty-two percent (62%) to Minidoka.

5. Domestic & Stock Groundwater Rights

a. Water Right No. A45-10389

This Snake River Basin Adjudication (SRBA) partial decreed water right has a priority date of June 19, 1909, for the diversion of 0.12 cfs of ground water for domestic purposes. The United States conveys the entire right to Burley.

b. Water Right No. A45-10391

This SRBA partial decreed water right has a priority date of June 19, 1909, for the diversion of 0.08 cfs of ground water for domestic purposes. The United States conveys the entire right to Burley.

6. Snake River Basin Adjudication Claims (SRBA)

a. Domestic Water Right Claim No. A45-10390

The United States filed for a statutory beneficial use claim in the SRBA. It has a priority date of June 19, 1909, for the diversion of 0.24 cfs of ground water for domestic purposes. The United States conveys its claim to water right, No. A45-

⁸ Decree of the Fourth Judicial District of Idaho on June 20, 1913 in the case of Twin Falls Canal Co. v. Charles N. Foster at p. 34.

10390, to Burley. However, Burley shall then be responsible for its ultimate confirmation as a water right in the SRBA proceedings.

b. Groundwater Water Right Claim No. A01-04047

- (1) The United States has filed for a groundwater recharge storage claim in the SRBA. It has a priority date of June 19, 1909, and is for the diversion of groundwater and Snake River surface water for the purpose of recharging and storage of groundwater. Because this water right is still necessary to sustain pumping flows for the B Unit of the Northside Pumping Division of the Minidoka Project and any change in ownership could injure project operations, The United States shall retain this right if decreed in the SRBA for the benefit of Minidoka Project Operations, except as provided by the following section.
- (2) The United States conveys to Burley its interest in water withdrawn from wells or captured by drains within Burley's boundaries that are used for either the purpose of improving or preserving the utility of land by draining them or for the purpose of recovering groundwater resulting from irrigation by Burley for further irrigation use on or drainage of lands to which the water rights of Burley are appurtenant.

Re: Notice of Change of Water Right Ownership

Dear Allen:

I have enclosed five (5) duly executed Notices of Change of Water Right Ownership. The Notice of Change of Water Right Ownership for Water Right Nos. 01-00211 and 01-00214 is a split of water rights held by the United States. Water Right No. 45-00512 is a water right that is completely transferred to Burley Irrigation District. The claim to Water Right No. 01-04047 is the entire claim being transferred to Burley Irrigation District, and the three domestic water rights are being transferred completely to Burley Irrigation District, as the land where these water rights are used has also been transferred to Burley Irrigation District, as shown by the Deed attached to the Notice of Change. If you have any questions in regard to these transfers, please feel free to contact this office.

Very truly yours,
