POD #1 is the main well on this place, but it is a supplemental source. The main source of water is water shared in Fox Creek Rock road pipeline. This well is connected to that pipeline as a supplement. This well is in Sec 30, NW 1/4.

POD #2 is a well with a 7 1/2 hp submersible pump that is used to irrigate pasture and lawn. Well is in Sec 30, SW 1/4.

The POD in section 35, NENE was sold and now belongs to new owner.

RE: Place of Use 22-13209 (22-7352 Part) Ground water

Dear Mr. Parrish:

Water right 22-7352 was split by ownership with 22-13209 being the portion remaining in your name. The water right is from ground water (wells) for the irrigation of 147 acres.

In the adjudication review the place of use as indicated in the field exam resulted in what appears to be the irrigation of 155.5 acres. To assist in the review of the place of use five copies of aerial photos are enclosed. Aerial photo #1 indicates the observed place of use and the claimed place of use. Aerial photo #2 indicates the claimed place of use and aerial photo #3 indicates the observed place of use. Aerial photo #4 indicates the claimed place of use and outlines seven areas that are in question. Aerial photo #5 is a copy of the area so that you can see the fields without anything on the photo.

After you have had an opportunity to review the aerial photos please call and if I am not available leave a voice message indicating the time and phone number of the best time to discuss the place of use.

Thank you,

Keith C. Wilson
Senior Resource Agent
