Source - Briggs Swamp

P. 150

22-12007 and 22-12006 are decrees
which together cover 320 undescribed acres.
Because they are undescribed and there are
no competing claims I will assume they
were always used on this land exclusively because
the source is "Swamp". Claimant owns
80 acres of decreed right 22-64C which
gives him .017 cfs/acre for that 80 acres (1.37 cfs).
Claimant owns the decreed POV for 22-169,
But only claims 1.066 cfs. 22-169B claims
the other cfs. I am assuming that water was sold
and that Chambers then spread the water thinner on
the 80 he owns ~~so from giving the claim a CFS~~
~~condition~~. All of these claims add up to a
total of 480 acres for a permissible pov
so no enlargement seems to be needed each
claim will get a K06 condition reflecting
their allotted acres.
